Paper 1

26 August 2024

3 hours

Additional Materials: Insert
Cover Sheet
Answer Paper

READ THESE INSTRUCTIONS FIRST

You should follow the instructions on the cover sheet. If you need additional answer paper, ask the invigilator.

Write your index number and name on the work you hand in.
Write in dark blue or black pen on both sides of the paper.
You may use an HB pencil for any diagrams or graphs.
Do not use staples, paper clips, glue or correction fluid.

Answer Question 1 in **Section A**.
Answer both questions in **Section B**.
Answer **two** questions in **Section C.**

Start your answer to each question on a fresh sheet of answer paper.

At the end of the examination, your answers should be separated and securely fastened into **2 bundles**. Attach the cover sheet on top of Bundle 1.

- Bundle 1: Cover sheet and answers to Questions 1 and 2.
- Bundle 2: Answers to Question 3 and Questions in Section C.

The number of marks is given in brackets [ ] at the end of each question or part question.

This document consists of **4** printed pages.

Section A

Cluster 2 Fieldwork

1 A group of students conducted a fieldwork investigation on the accessibility of transportation and quality of outdoor spaces for the elderly in Bukit Merah. The focus of their investigation was to assess how well the community's infrastructure supports the elderly in staying active and independent. The hypothesis for their study was:

'Public transportation and outdoor spaces in Bukit Merah do not adequately meet the needs of elderly residents.'

The students conducted the investigation over two weekdays in August, between 9am and 12pm. The two main locations selected were the Bukit Merah Bus Interchange and the Tiong Bahru Plaza shopping mall. These locations were chosen based on their accessibility and frequency of use by elderly residents. The students decided to collect data by conducting a survey and taking photographs of the area.

A total of 30 elderly respondents, aged 60 and above, participated in the survey. The aim was to gather data on their experiences with transportation and outdoor spaces.

Resource 1 shows photographs of Bukit Merah Bus Interchange and Tiong Bahru Plaza shopping mall. Resource 2 shows the survey that the students used. Resource 3 shows selected results of the survey.

(a) Explain why this hypothesis is appropriate for the investigation. [4]

(b) Describe how the students can improve the sampling method used in their investigation. [3]

(c) With reference to Resources 1 and 2, explain two possible issues related to ethics when students collect primary data. [4]

(d) With reference to Resource 1, suggest how the students could minimise potential risks when they undertake fieldwork at Bukit Merah Bus Interchange and Tiong Bahru Plaza shopping mall. [6]

(e) With reference to Resource 3, explain the limitations of the data representation shown. [3]

(f) Evaluate the validity of the data shown in Resource 3 in answering the hypothesis. [10]

Section B

Cluster 1 Sustainable Future and Climate Change

Answer **both** questions

2 Resource 4 shows the temperature change since the mid-19th century. Resource 5 shows the 20 largest contributors to cumulative carbon dioxide (CO_2) emissions from 1850 to 2021.

(a) Describe the pattern of temperature anomalies shown in Resource 4. [4]

(b) Compare the patterns of CO_2 emissions from the top ten countries shown in Resource 5. [4]

(c) Explain why the areas showing the greatest increase in temperature in Resource 4 do not necessarily correspond to the countries with greatest CO_2 emissions shown in Resource 5. [4]

(d) Explain two arguments that support the view that contemporary climate change is caused by human activities. [4]

(e) Describe two natural causes of climate change leading to glacial and inter-glacial periods. [6]

3 Resource 6 shows photographs of the London docklands in 1968 and 2018. Resource 7 shows the population changes in the London docklands towns from 1801 to 2019. Resource 8 shows an article about Canary Wharf.

(a) Using Resource 6, describe the changes in the London docklands from 1968 to 2018 . [4]

(b) Explain the economic reasons for urban reimaging efforts. [4]

(c) Describe the changes in population in the London Dockland towns from 1801 to 2019 as shown in Resource 7. [4]

(d) With reference to Resource 8, explain the impacts of urban reimaging on sustainable urban development. [6]

(e) Explain the tensions between sustainable urban development and liveability. [4]

Section C

Answer **two** questions

4 ‘Rapid urban growth is the greatest challenge for countries progressing towards sustainable urban development.’

Evaluate this statement. [13]

5 ‘Climate change affects all regions equally.’

Evaluate this statement. [13]

6 ‘Strategies to respond to climate change have largely been effective.’

Evaluate this statement. [13]
