Catholic Junior College
JC2 Preliminary Examination
Higher 1

GEOGRAPHY 8834/1

26 August 2024

3 hours

READ THESE INSTRUCTIONS FIRST

If you have been given an Answer Booklet, follow the instructions on the front cover of the Booklet.

Write your Centre number, index number and name on the work you hand in.

Write in dark blue or black pen on both sides of the paper.
You may use an HB pencil for any diagrams or graphs.

Do not use staples, paper clips, glue or correction fluid.

DO **NOT** WRITE ON ANY BARCODES.

Answer Question 1 in **Section A**.
Answer both questions in **Section B**.
Answer **two** questions in **Section C**.

At the end of the examination, fasten all your work securely together.
The number of marks is given in brackets [ ] at the end of each question or part question.

Section A

Cluster 2 Fieldwork

1 With the launch of the Singapore Green Plan, which promotes sustainable living as one of its five pillars, a group of five students wanted to find out the extent to which the CJC community of 1200 people was behaving sustainably. They decided to conduct a study on the use of single-use plastics with the following research question:

To what extent does the CJC community use single-use plastics, such as straws, cutlery and packaging, in the school?

For their investigation, they selected a JC2 recess session where they approached anyone who was willing to respond to their questionnaire. They managed to survey a total of 23 people (18 teachers and 5 students). They also embarked on participant observation one day and stood near the drinks stall to see if students requested for straws. Finally, they went to the rubbish bins in the canteen at the end of the same day to observe the amount of plastic waste disposed. Each member went to a bin to observe using his/her own method of measurement.

Resource 1 shows the map of the school canteen. Resource 2 shows the questionnaire questions used by the students. Resource 3 shows the results of the questionnaire and participant observations.

(a) Explain why the students' research question was suitable for the investigation. [3]

(b) Explain the value of administering a questionnaire and doing participant observations in their research. [5]

(c) Explain how students can improve their sampling method for the survey. [4]

(d) With reference to Resource 2, explain how the students should pilot the questionnaire questions. [3]

(e) Using Resource 3, describe the usage of single-use plastics in CJC. [5]

(f) Evaluate the students' investigation of the usage of single-use plastics in CJC. [10]

Section B

Cluster 1 Sustainable Future and Climate Change

Answer **both** questions

2 Resource 4 is a cartogram of world consumption in 2003. Resource 5 shows the changes in the management of all local authority collected waste and recycling rates in England from 2000-01 to 2021/22.

(a) With reference to Resource 4, describe the patterns of world consumption in 2003. [4]

(b) Cite data from Resource 5 to describe the changes in England's recycling from 2000-01 to 2021/22. [5]

(c) With reference to Resource 5, suggest how England's waste management has influenced its progress towards environmental sustainability. [5]

(d) Suggest why urban reimaging may result in trade-offs. [4]

(e) Using examples, explain why assessments of liveability are subjective. [4]

3 Resource 6 is a map of sea surface height change from 1992 to 2019. Resource 7 shows mean global surface temperature anomalies from climate models and observations of surface temperature between 1970 and 2030 using a baseline average from 1900 to 2000. Resource 8 shows a map of the European Union showing percentage of people who think they have to move because of climate change.

(a) Cite data from Resource 6 to describe changes in sea surface height between 1992 and 2019. [4]

(b) Explain how human actions can lead to trends seen in Resource 7. [5]

(c) Suggest reasons for the variations shown in Resource 8 [5]

(d) Explain **one** positive impact of climate change. [2]

(e) Explain why the impact of climate change may be uncertain. [6]

Section C

Answer **two** questions

4 ‘Meeting the needs of the elderly is essential for successful urban reimaging.’

Evaluate this statement. [13]

5 Evaluate the success of strategies to improve the lives of slum dwellers in cities. [13]

6 ‘Contemporary climate change affects everyone equally.’

Evaluate this statement. [13]
