READ THESE INSTRUCTIONS FIRST
If you have been given an Answer Booklet, follow the instructions on the front cover of the Booklet.
Write your Centre number, index number and name on the work you hand in.
Write in dark blue or black pen on both sides of the paper.
You may use an HB pencil for any diagrams or graphs.
Do not use staples, paper clips, glue or correction fluid.

Answer Question 1 in **Section A**.
Answer Question 2 in **Section B**.
Answer **one** question in **Section C.**

At the end of the examination, fasten all your work securely together.
The number of marks is given in brackets [ ] at the end of each question or part question.

Answer Questions 1 and 2 and
EITHER Question 3 **OR** Question 4

Section A

Cluster 4 Fieldwork

1 A group of 4 students is interested to investigate if neighbourhoods in Singapore meet the needs of the elderly. They read an article of about upcoming project, the Toa Payoh Integrated Development, and want to investigate if it would supplement the Toa Payoh neighbourhood in meeting the needs of the elderly when it is completed.

The students came up with the following hypothesis:

"With the Toa Payoh Integrated Development, Toa Payoh will meet the needs of the elderly in the neighbourhood."

The students went to Toa Payoh Hub to collect the data for the investigation every Monday from 8pm to 9pm for 4 weeks in August. To gather data from the elderly, the group administered a survey questionnaire in English. However, the group faced difficulties collecting the data as the elderly were cautious about them being scammers and some could not respond in English. The group ended up with a total of 15 responses.

Resource 1 shows the map of Toa Payoh. Resource 2 shows the article on the upcoming Toa Payoh Integrated Development. Resource 3 shows the survey the students have crafted for the investigation. Resource 4 shows selected responses by the elderly to Question 10 of the survey.

(a) Explain why the students' hypothesis is suitable for investigation. [4]

(b) Using Resource 2, explain how Toa Payoh Integrated Development can help to meet the needs of the elderly. [5]

(c) Explain the ethical considerations the group should bear in mind when conducting surveys. [4]

(d) With reference to Resource 3, explain the strengths of the survey questionnaire that the students have crafted in providing data for this study. [6]

(e) Develop a plan on **one** other primary data collection method that can help to supplement the students' investigation. [7]

(f) Using Resource 4, describe how the data collected from Question 7 of the survey can be analysed. [4]

(g) Based on the students' investigation, the students concluded that their hypothesis can be accepted.

Evaluate the validity of the fieldwork. [10]

Section B

Cluster 3 Sustainable Future and Climate Change

2 Resource 5 shows the percentage of urban slum population in developing regions in the world from 1990 to 2014. Resource 6 shows an excerpt on women's lives in slums. Resource 7 shows oxygen isotope data in ocean cores for the last 500,000 years. Resource 8 shows a cartoon on responses to climate change.

(a) With reference to Resource 5, compare the percentage of urban slum population across developing regions in the world from 1990 to 2014. [5]

(b) Using Resource 6, explain the issues that are more prevalently faced by women living in urban slums. [6]

(c) Describe strategies implemented by cities to improve the lives of slum dwellers. [4]

(d) Using Resource 7, explain how the study of ocean cores provides evidence of past climate variability. [4]

(e) Describe how the impacts of contemporary climate change vary. [6]

(f) With reference to Resource 8, explain the challenges in responses to climate change. [5]

Section C

Answer EITHER question 3 OR question 4.

3 'Urban reimaging is important in contributing to cities' progress towards sustainable urban development.'

Evaluate this statement. [20]

4 'It is not possible to stop climate change.'

Evaluate this statement. [20]
