GEOGRAPHY **9173/01**
Paper 1

22 August 2024

3 hours

Additional Materials: Insert

READ THESE INSTRUCTIONS FIRST
If you have been given an Answer Booklet, follow the instructions on the front cover of the Booklet.
Write your Centre number, index number and name on the work you hand in.
Write in dark blue or black pen on both sides of the paper.
You may use an HB pencil for any diagrams or graphs.
Do not use staples, paper clips, glue or correction fluid.

Answer both questions in Section A.
Answer two questions in Section B, one from each cluster.

At the end of the examination, fasten all your work securely together.
The number of marks is given in brackets [ ] at the end of each question or part question.

Section A

Answer **both** questions.

Cluster 1: Development, Economy and Environment

1 Resource 1 shows the distribution of states in India with solar power projects in 2017. Resource 2 is an article on use of solar energy in India. Resource 3 shows China's plans for a 'super dam' with existing dams on the rivers. Resource 4 shows Sustainable Development Goal (SDG) indicator 7.2.1 on share of final energy use that comes from renewable sources in 2020.

(a) Explain how provisioning services can be classified based on their renewability. [4]

(b) With reference to Resource 1, describe the distribution of solar power projects in India in 2017. [4]

(c) With reference to Resource 2, explain the trade-offs associated with the use of solar power. [4]

(d) With reference to Resource 3, explain how China's super dam in Tibet can cause conflict between China and India. [6]

(e) Explain the strategies that can be implemented to mitigate potential conflict over transboundary water resources as seen in Resource 3. [6]

(f) With reference to Resource 4, suggest possible reasons for the global variation in the share of energy use that comes from renewable sources. [6]

Cluster 2: Tropical Environments

2 Resource 5 shows the climograph of Pathein, a city located within the Irrawaddy Delta in Myanmar. Resource 6 shows summer and winter monsoon circulations in humid tropical Asia. Resource 7 shows the forecast of Tropical Cyclone Mocha in May 2023 by the Myanmar Information Management Unit. Resource 8 shows land cover of the Irrawaddy Delta in 1974 and 2021.

(a) Describe the climatic characteristics of Pathein, Myanmar as seen in Resource 5. [4]

(b) Using Resource 6, account for the climatic characteristics of Pathein, Myanmar as shown in Resource 5. [6]

(c) With reference to Resource 7, describe the development of Tropical Cyclone Mocha. [4]

(d) Explain atmospheric and surface conditions necessary for the development of tropical cyclones, such as the one seen in Resource 7. [5]

(e) With reference to Resource 8, explain how ecosystem services provided by the Irrawaddy Delta could be affected by the changes in land cover. [6]

(f) Explain how deltas are formed. [5]

Section B

Answer **either** question 3 **or** question 4 and answer **either** question 5 **or** question 6.

Cluster 1 Development, Economy and Environment

3 'The world's progress towards sustainable development is alarmingly insufficient.' (United Nations, 2024)

Evaluate the validity of the statement. [20]

4 'States have more influence on economic activities than labour.'

Evaluate the validity of the statement above. [20]

Cluster 2 Tropical Environments

5 'The effects of fluvial floods vary.'

Evaluate this statement. [20]

6 Evaluate the factors influencing the formation of karst landforms in the humid tropics. [20]
