NANYANG JUNIOR COLLEGE
Year 2 Preliminary Examination

H1 GEOGRAPHY 8834/01

10 Sept 2024

3 hours

Additional Materials: Insert

READ THESE INSTRUCTIONS FIRST

If you have been given an Answer Booklet, follow the instructions on the front cover of the Booklet.
Write your Centre number, index number and name on the work you hand in.
Write in dark blue or black pen on both sides of the paper.
You may use an HB pencil for any diagrams or graphs.
Do not use staples, paper clips, glue or correction fluid.
DO NOT WRITE ON ANY BARCODES.

Answer Question 1 in **Section A.**
Answer **both** questions in **Section B**.
Answer **two** questions in **Section C**.

At the end of the examination, fasten all your work securely together.
The number of marks is given in brackets [ ] at the end of each question or part question.

Section A

Cluster 2 Fieldwork

1 A group of 10 students wanted to investigate if businesses within the community is actively responding to climate change.

They visited Tampines IKEA (a mega home furnishing store) to find out their green initiatives, and did an investigation on people's awareness and response to climate change actions in Tampines IKEA over a Saturday afternoon from 3pm-5pm where the shop is expected to be crowded to get a bigger sample size.

They developed a research question: **Are businesses in Singapore doing enough to encourage climate change action?**

The students went around Tampines IKEA in groups of 2 to observe the store and approached any person who was willing to do their questionnaire survey. They surveyed 20 persons in all, including one staff member. Most of those they surveyed were young couples who were there to get furniture for their new homes. They also went round to the showrooms and the restaurant to take photographs of areas they feel the business was doing enough to mitigate climate change.

Resource 1 shows pictures the students took of areas in Tampines IKEA where they felt the business was doing enough to mitigate climate change. Resource 2 shows the questionnaire that the students used to survey some of the shoppers there. Resource 3A and 3B shows the results of the questionnaire survey that the students did to show their questionnaire findings.

(a) Explain **two** weakness of the student's research question. [4]

(b) With reference to Resource 1, explain **two** possible impacts the students might have while doing the investigation. [4]

(c) Suggest how the students could minimise **three** potential risks while doing their investigation at Tampines IKEA. [6]

(d) With reference to Resource 3A, explain how the students can improve the data presentation method. [6]

(e) Based on observations in Tampines IKEA and the results from the questionnaire survey, the students concluded that businesses in Singapore are doing enough to encourage climate change action. Evaluate the validity of their conclusion. [10]

Section B

Cluster 1 Sustainable Future and Climate Change

Answer **both** questions

2 Resource 4 shows the proportion of global urban population living in slums (percentage) and total slum population (millions) between 2000 and 2020. Resource 5 is a photograph of Happyland, part of the Tondo slum in Manila. Resource 6 shows the relationship between GDP per capita and the prevalence of undernourishment and TB incidence per 100 000 population in 2021.

(a) Describe the changes in the global urban population living in slums between 2000 and 2020 as shown in Resource 4. [4]

(b) Suggest reasons for the trends shown in Resource 4. [5]

(c) With reference to Resource 5, describe **three** aspects of the deprivation experienced by slum dwellers in Tondo, Manila. [3]

(d) Describe the relationship between GDP per capita and the prevalence of undernourishment and TB incidence as shown in Resource 6. [4]

(e) Explain how tuberculosis (TB) can spread in slums, such as that shown in Resource 5. [6]

3 Resource 7 shows the number of days with temperature increase above pre-industrial levels between 1990 to 2023. Resource 8 shows climate change impact on various aspects of nature. Resource 9 shows the global climate change vulnerability index in 2017.

(a) Describe the changes in temperature from 1990 to 2023 as shown in Resource 7. [4]

(b) With reference to Resource 8, describe how climate change can impact nature in **two** areas. [4]

(c) Explain how the **two** areas identified in part (b) can impact the human system. [4]

(d) Describe the pattern of climate change vulnerability across the world in 2017 as shown in Resource 9. [4]

(e) With reference to Resource 9, suggest why some countries are more vulnerable to climate change than others. [6]

[Turn over

Section C

Answer **two** questions

4 'Progress towards sustainable urban development is hampered by high urbanisation rates and rapid urban growth.' Evaluate this statement. [13]

5 Evaluate the issues that affect the liveability of elderly living in the cities. [13]

6 'It is possible to implement effective strategies to respond to contemporary climate change.' Evaluate this statement. [13]
