**VICTORIA JUNIOR COLLEGE**

**JC2 PRELIMINARY EXAMINATIONS 2024**

**H1 GEOGRAPHY** **8834/01**

**3 hours**

---

**READ THESE INSTRUCTIONS FIRST**

Write your name and index number on the work you hand in.
Write in dark blue or black pen on both sides of the paper.
You may use an HB pencil for any diagrams or graphs.
Do not use staples, paper clips, glue or correction fluid.

Answer Question 1 in **Section A**.
Answer **both** questions in **Section B**.
Answer **two** questions in **Section C**.

The Insert contains all the Resources referred to in the questions.
You should make reference to appropriate examples studied in the field or the classroom, even where such examples are not specifically requested by the question.
Diagrams and sketch map should be drawn whenever they serve to illustrate and answer.
You are reminded of the need for good English and clear presentation of your answers.

At the end of the examination fasten all your work securely together by section.
The number of marks is given in brackets [ ] at the end of each question or part question.

---

## Section A

## Cluster 2 Fieldwork

**1** A group of four students from Zurich University carried out fieldwork to investigate the perceptions on ageing well among elderly in Winterthur, Switzerland. They identified three elements as important for ageing well: "sense of well-being," "having good physical health," and "preserving good mental health."

Data was first collected through a questionnaire survey with 56 participants. Convenience sampling was used to recruit the participants.

From the 56 participants, ten of them were chosen for face-face interviews. The interview sessions were conducted in familiar, comfortable and accessible settings for the participants within the community or in the participants' homes. A few of the interviews were carried out in pairs upon the request of the participants. A voice recorder was used to record all the interview sessions.

Resource 1 shows the profile of the 56 participants. Resource 2 shows the survey recording sheet. Resource 3 shows the results of selected survey questions.

(a) Suggest a possible hypothesis for the investigation and explain why the hypothesis is appropriate. [3]

(b) Explain two criteria which the students could use to select participants for the investigation. [4]

(c) With reference to Resource 2, suggest how the survey recording sheet can be improved. [4]

(d) Explain the strengths of the students' approach to the interviews for the investigation. [5]

(e) Explain how the students could minimize two potential ethical issues which might arise from the investigation. [4]

(f) The students concluded that the elderly in Winterthur, Switzerland perceived having good physical health as the most important element for ageing well.

Evaluate the validity of their conclusion. [10]

## Section B

### Cluster 1 Sustainable Future and Climate Change

Answer **both** questions

**2** Resource 4 shows the changes in the Earth Overshoot Day from 1971 to 2024. Resource 5 shows waste disposed by types of settlements in Mthatha, South Africa. Resource 6 shows the locations of different types of settlements in Mthatha. Mthatha is a fast-growing city in South Africa.

**(a)** Explain what is meant by ecological footprint. [3]

**(b)** With reference to Resource 4, describe the change in the arrival of the Earth Overshoot Day between 1971 to 2024. [5]

**(c)** With reference to Resource 5, compare the waste disposed by informal slum settlements and low-density residential settlements. [4]

**(d)** Explain the reasons for the development of slums in urban areas of countries at low levels of development. [4]

**(e)** With reference to Resources 5 and 6, explain how Mthatha's challenges in managing non-hazardous solid waste can limit its progress towards sustainable urban development. [6]

**3** Resource 7 shows the percentage of carbon emissions from individual consumption by income groups. Resource 8 shows changes to the global carbon cycle from 2011 to 2020. Resource 9 shows a type of response to climate change.

**(a)** Describe the percentage of carbon dioxide emissions by income groups as seen in Resource 7. [4]

**(b)** With reference to Resource 8, explain how humans have influenced the global carbon cycle from 2011 to 2020. [4]

**(c)** Explain the impact of changes to the global carbon cycle seen in Resource 8 on global temperatures and aquatic ecosystems. [4]

**(d)** Explain how changes in ice sheets can affect global temperatures through positive feedback mechanisms. [4]

**(e)** Using Resource 9, explain the role of key actors in responding to climate change. [6]

## Section C

Answer **two** questions

**4** ‘The most pressing issues faced by elderly living in cities relate to their psychological well-being.’

Evaluate this statement. [13]

**5** ‘The liveability of cities is mainly influenced by environmental factors.’

Evaluate this statement. [13]

**6** ‘The impacts of contemporary climate change on less developed countries are greater than those on developed countries.’

Evaluate this statement. [13]
