Paper 1

28 August 2025

3 hours

Additional Materials: Insert
Cover Sheet
Answer Paper

READ THESE INSTRUCTIONS FIRST

You should follow the instructions on the cover sheet. If you need additional answer paper, ask the invigilator.
Write your index number and name on the work you hand in.
Write in dark blue or black pen on both sides of the paper.
You may use an HB pencil for any diagrams or graphs.
Do not use staples, paper clips, glue or correction fluid.

Answer both questions in **Section A**.
Answer two questions in **Section B**, one from each cluster.

Start your answer to each question on a fresh sheet of answer paper.

At the end of the examination, your answers should be separated and securely fastened into **2 bundles**. Attach the cover sheet on top of Bundle 1.

- Bundle 1: Cover sheet and answers to Question 1 and Question 3 or 4.
- Bundle 2: Answers to Question 2 and Question 5 or 6

The number of marks is given in brackets [ ] at the end of each question or part question.

This document consists of **4** printed pages.

Section A

Answer **both** questions.

Cluster 1: Development, Economy and Environment

1 Resource 1 shows the global oil production and consumption. Resource 2 shows an oil rig. Resource 3 shows historical oil prices relative to Organisation of the Petroleum Exporting Countries (OPEC) nations' Gross Domestic Product (GDP). Resource 4 shows the Human Development Index formula.

(a) Describe the pattern of global oil production and consumption as shown in Resource 1. [5]

(b) Using Resource 2, explain the impacts of extractive industries on the host economies. [6]

(c) Using Resource 3, describe the relationship between historical oil prices and the OPEC nations' GDP. [4]

(d) Explain how countries can manage the impacts of extractive industries. [6]

(e) Using Resource 4, explain the issues in measuring sustainable development. [4]

(f) Explain how variations over time and space of a provisioning service are influenced by demand and technology. [5]

Cluster 2: Tropical Environments

2 Resource 5 shows the sea surface temperature anomaly during an El Nino event in 2023. Resource 6 shows the spatial and temporal distribution of tropical cyclones. Resource 7 shows a meandering stream in the humid tropics. Resource 8 shows a braided stream located on a glacial outwash plain.

(a) With the aid of Resource 5, describe the oceanic and atmospheric conditions associated with an El Nino event. [4]

(b) Explain the conditions leading to the spatial and temporal distribution of tropical cyclones shown in Resource 6. [6]

(c) Explain how climate and vegetation lead to differences in storm hydrographs of the humid and arid tropics. [6]

(d) Compare the fluvial features of the meandering stream along the cross-section labelled P – Q in Resource 7 with those along the cross-section X – Y of the braided stream shown in Resource 8. [4]

(e) With reference to Resource 8, explain the factors that contribute to the formation of the braiding pattern shown. [6]

(f) Describe **four** ecosystem services provided by deltas in the humid tropics. [4]

Section B

Answer **either** question 3 **or** question 4 and answer **either** question 5 **or** question 6.

Cluster 1 Development, Economy and Environment

3 Evaluate the strategies to manage conflicts over transboundary water resources. [20]

4 Evaluate the relative influence of the multilateral institutions in shaping the global economy. [20]

Cluster 2 Tropical Environments

5 'Fluvial flooding in the humid tropics is largely the result of human activities in the drainage basin.'

Evaluate this statement. [20]

6 Evaluate the factors influencing the formation of karst landforms in the humid tropics. [20]
