ANDERSON SERANGOON JUNIOR COLLEGE

JC2 H1 Geography Preliminary Exam (2025)

H1 GEOGRAPHY **8834/ 01**

25 August 2025

INSERT **3 hours**

READ THESE INSTRUCTIONS FIRST

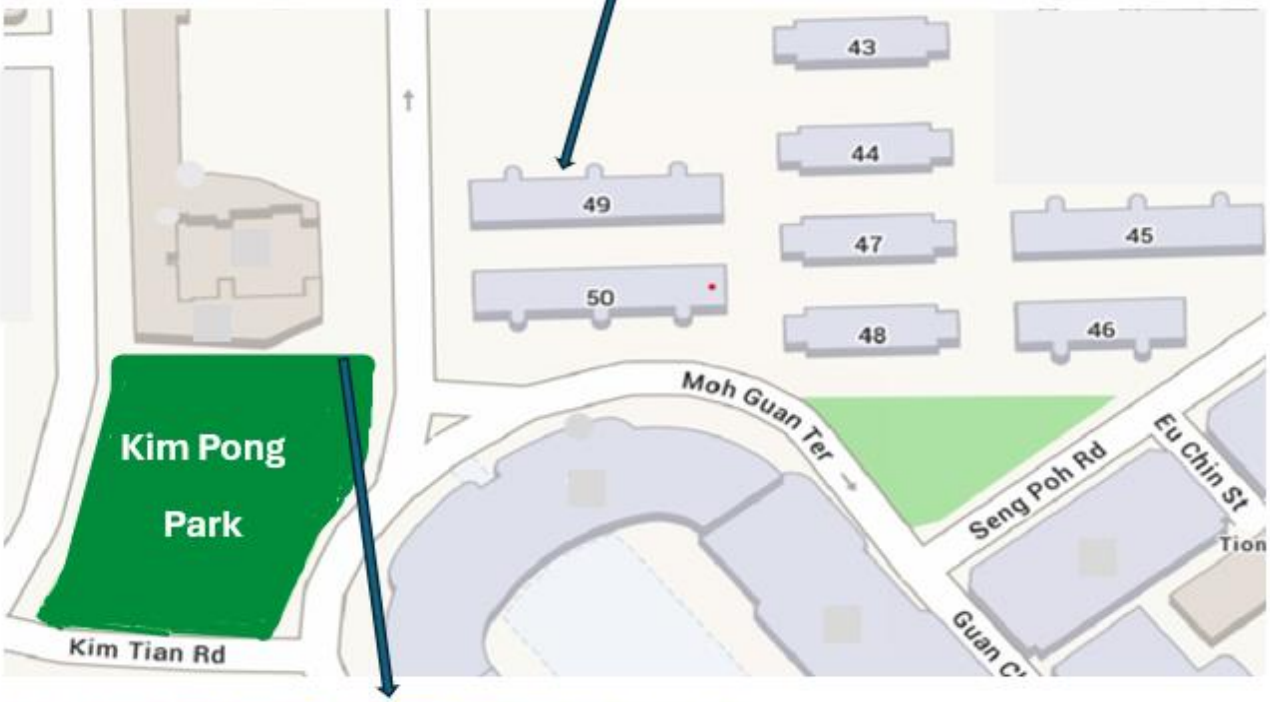

The Insert contains all the Resources referred to in the questions.

Resource 1 for Question 1

Kim Pong Park with an exit point and nearby low-rise apartment blocks (43 to 50)

An example of a low-rise apartment block

An exit point of the park

Resource 2 for Question 1

Survey questionnaire used by the students

Interview Questionnaire for Elderly Park Visitors and Their Well-Being

Respondent No. _____ Gender_____

1. How often do you usually visit the nearby park?

☐ Never/Rarely (less than once a week)

☐ Sometimes (1–2 times a week)

☐ Often (3–5 times a week)

☐ Very often (almost every day)

2. What is your main reason for visiting the park? (choose one)

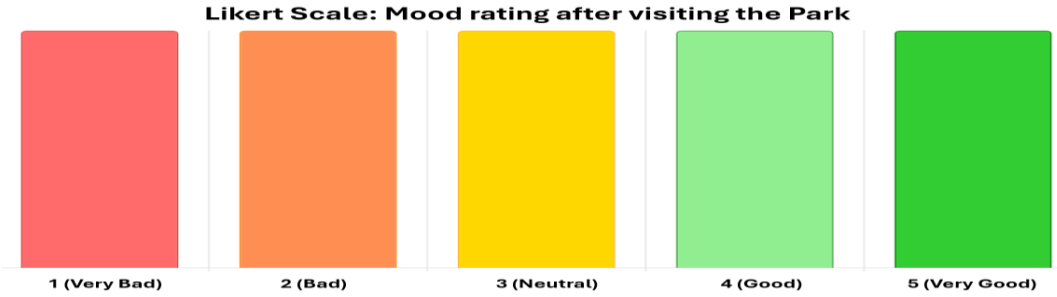

☐ Exercise

☐ Relaxation

☐ Socialising

☐ Other: _____

3.How would you rate your mood after visiting the park? (1 = very bad, 5 = very good)

4. What are the main reasons you don't go to the park regularly? *(For those who said they don't visit or rarely visit the park (less than once a week)* _____

5. Don't you agree that parks are the best way for seniors to feel less depressed?

☐ Yes ☐ No

6. Do you go to the park because you're lonely and have nothing else to do?

☐ Yes ☐ No

7. Do parks make old people happier?

☐ Yes ☐ No

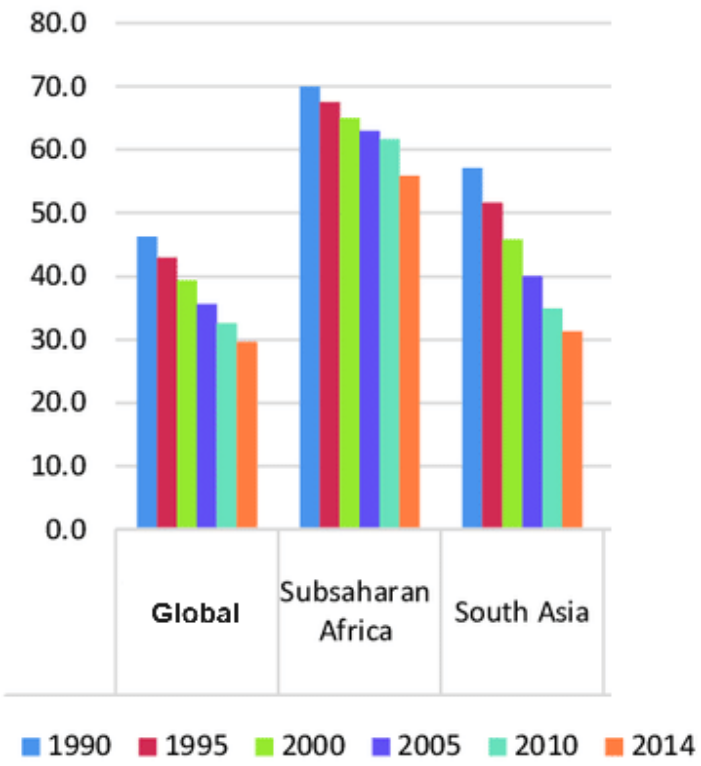

Resource 3 for Question 1

Park visit frequency and self-reported mood among elderly respondents

Respondent	Gender	Visits per Week	Mood Rating (1–5)	Main Reason for Visiting / Non-Visiting
1	M	6	5	Morning exercise and meeting friends
2	M	4	4	Walking the dog and enjoying nature
3	F	7	5	Daily tai chi and fresh air
4	M	3	4	Relaxation
5	F	5	5	Group aerobics at the park
6	F	2	3	Short walks for light exercise
7	F	1	2	Occasional stroll
8	F	4	4	Regular tai chi sessions in park
9	M	1	2	Mobility issues / uses walking aid
10	M	3	4	Socializing with neighbours
11	M	1	1	Health issues, limit outdoor activity
12	M	0	1	Dread mosquito bites
13	M	0	1	Recent loss of spouse, decreased activity
14	M	5	5	Daily morning walk
15	M	0	2	Prefers indoor activities due to weather
16	M	2	3	Need fresh air
17	M	0	1	Chronic health conditions prevent walking
18	F	6	5	Playing chess with friends outdoors
19	M	0	2	No companion to accompany to park
20	F	3	4	Relaxation and enjoying flowers

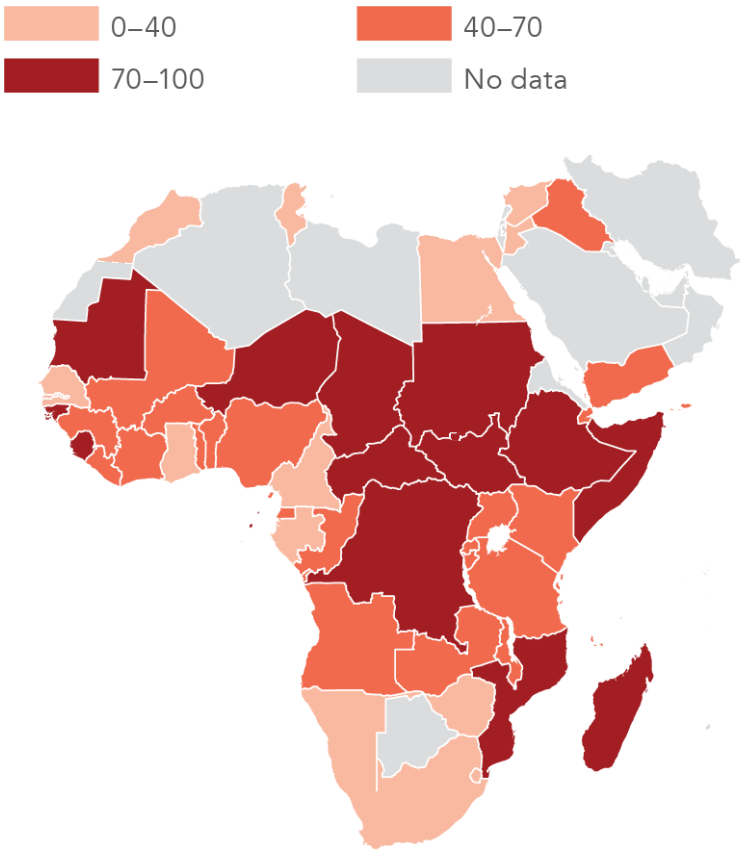

Resource 4 for Question 2

Percentage share of urban population living in slums for select regions, 1990-2014

Resource 5 for Question 2

Percentage share of urban population living in slums in Africa, 2014

Resource 6A for Question 2

Makoko informal settlement in Lagos, Nigeria

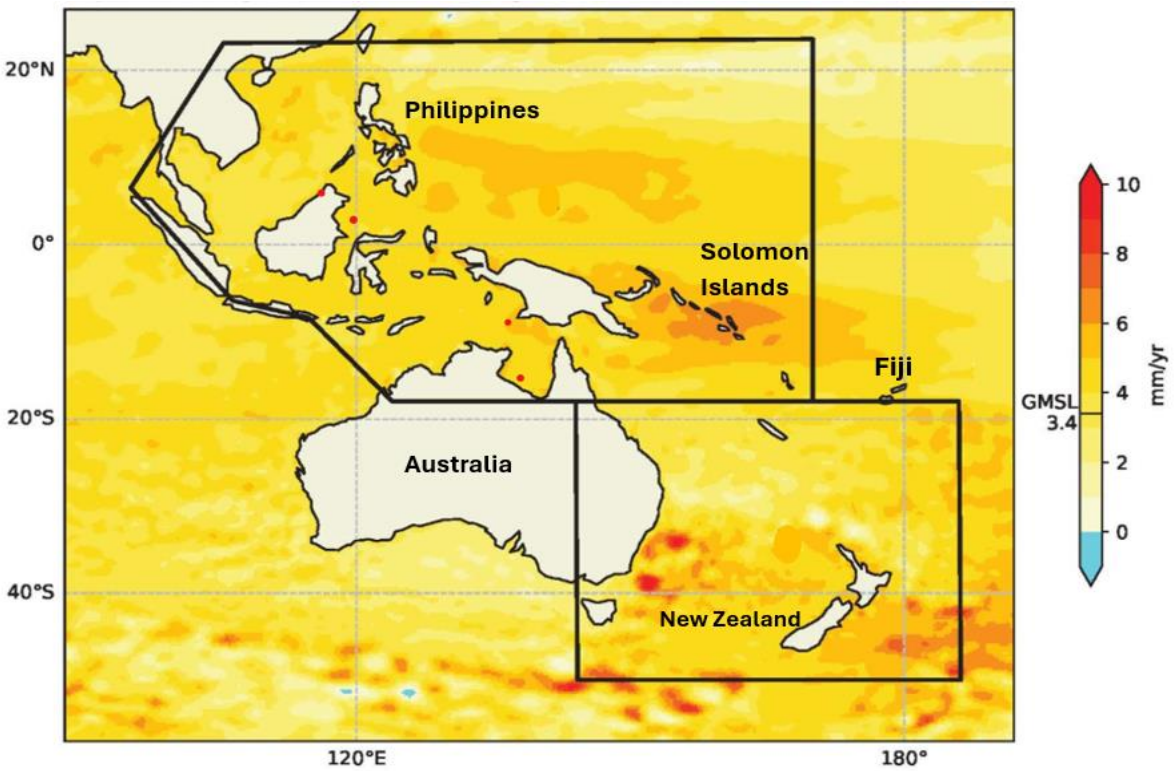

Resource 6B for Question 2

Kibera informal settlement in Nairobi, Kenya

Resource 7 for Question 3

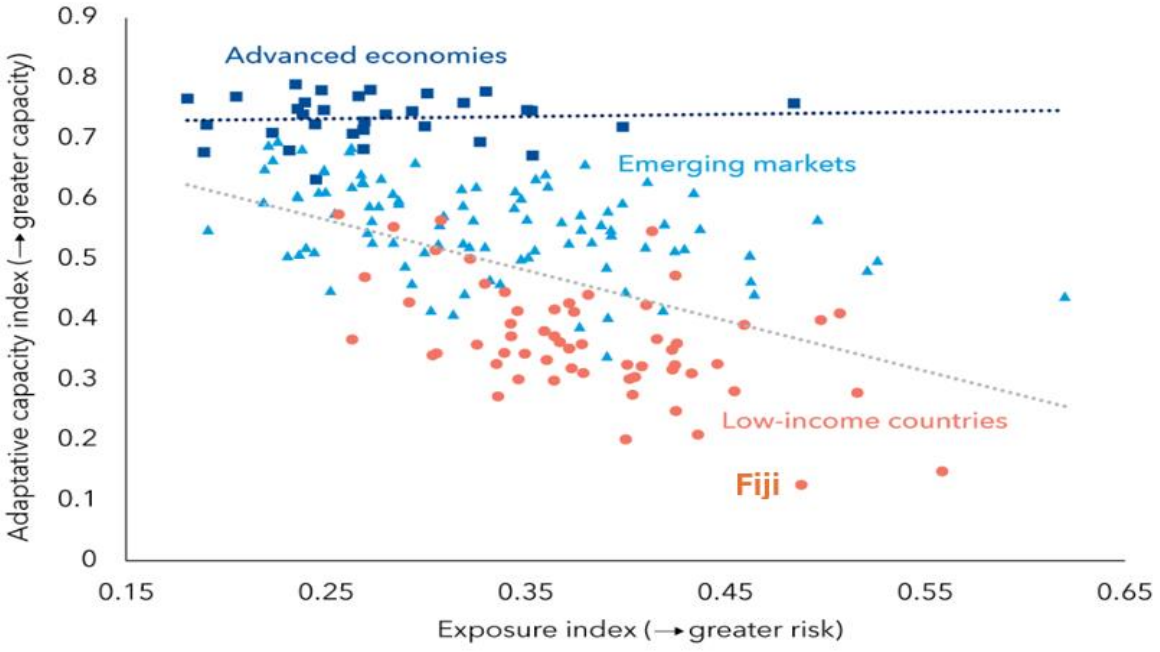

Annual mean sea level trend (mm/year) in the Western Pacific region, 1993-2024

(Note: GMSL is the Global Mean Sea Level at 3.4 mm/year)

Resource 8 for Question 3

Relationship between adaptative capacity index and exposure index of countries at different levels of development

Exposure index *measures the degree to which a country is exposed to climate-related hazards (e.g., sea level rise, extreme weather, droughts).* ***Adaptive capacity index*** *evaluates a country's ability to adjust, cope, or adapt to these hazards. The maximum point for both indexes is 1.0*

Resource 9A for Question 3

A coastal adaptation strategy in Fiji

Resource 9B for Question 3

A coastal adaptation strategy in Fiji
