Resource 1 for Question 1

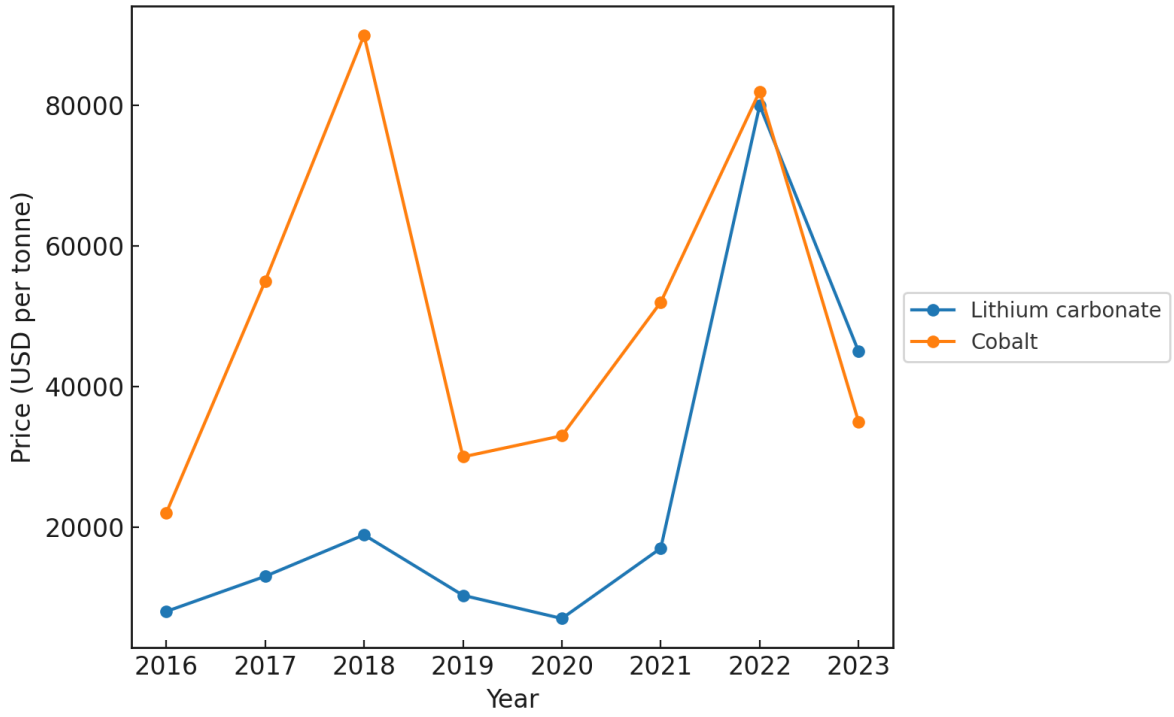

Mineral Contribution Index* (MCI) by country in 2018

**The Mineral Contribution Index (MCI) measures how much a country's economy depends on mineral extraction and processing. Higher MCI values indicate economies more reliant on mineral mining for their Gross Domestic Product while lower values show less reliance.*

Resource 2 for Question 1

Global price of lithium carbonate and cobalt, from 2016 to 2023

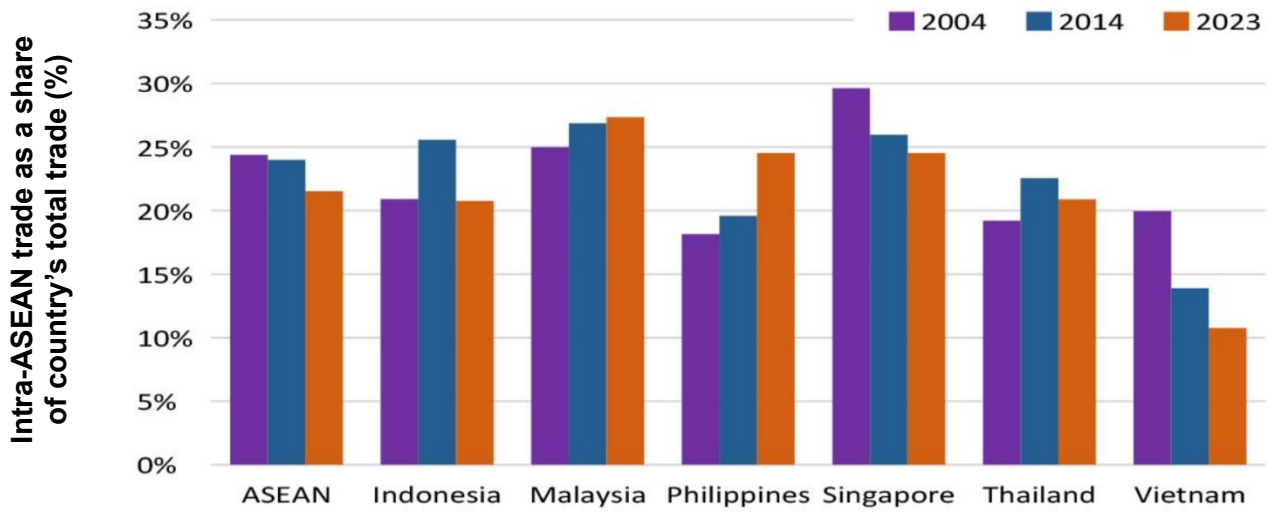

Resource 3 for Question 1

Landscape of an area in Australia after mining took place

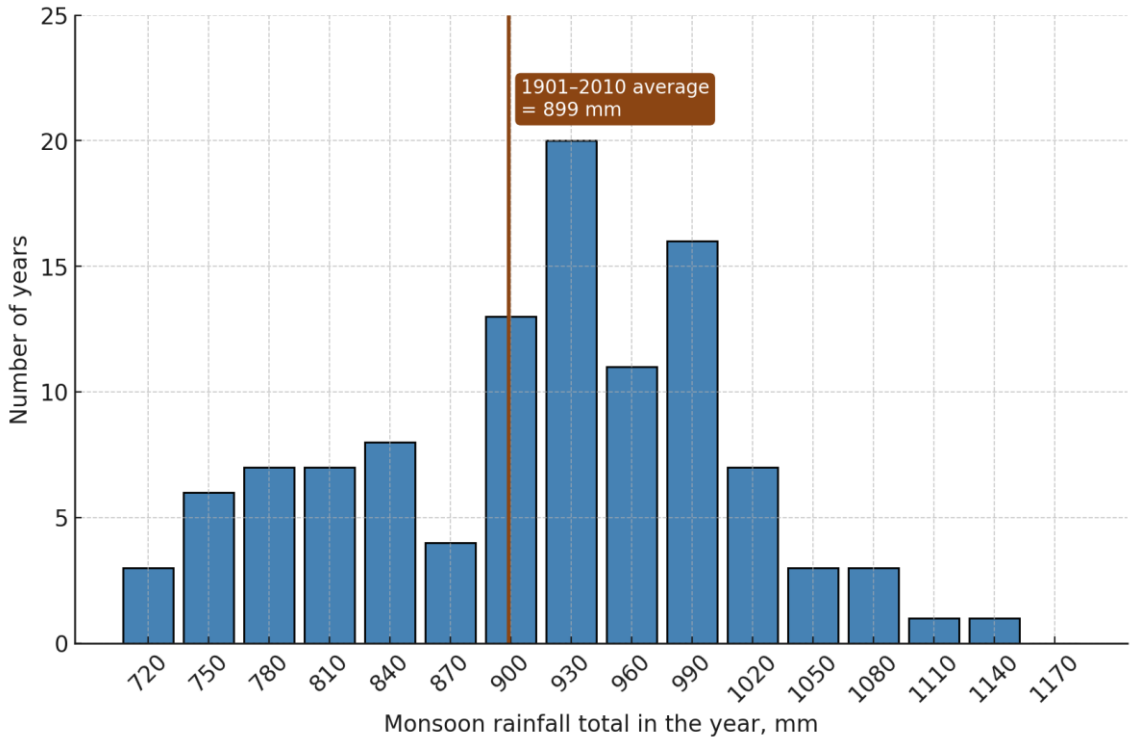

Resource 4 for Question 1

Intra-ASEAN trade as a share of total trade for six ASEAN member states between 2004 and 2023

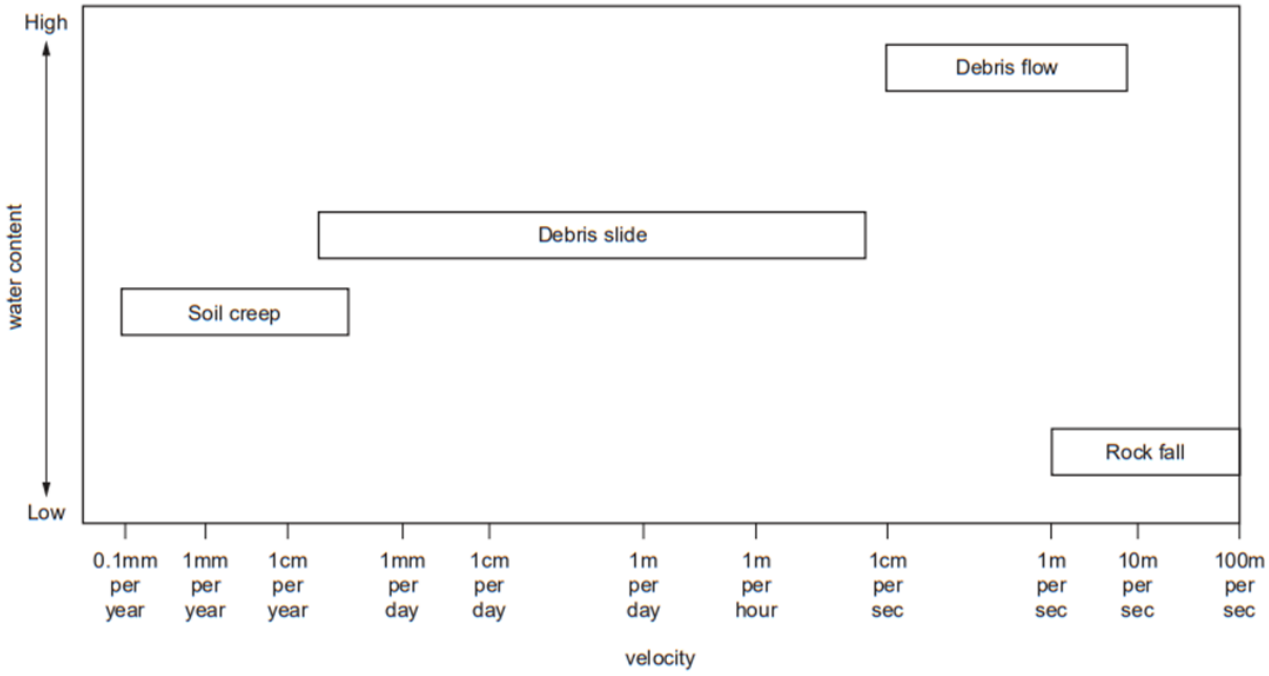

Resource 5 for Question 2

Distribution of annual summer monsoon rainfall totals in India, 1901–2010

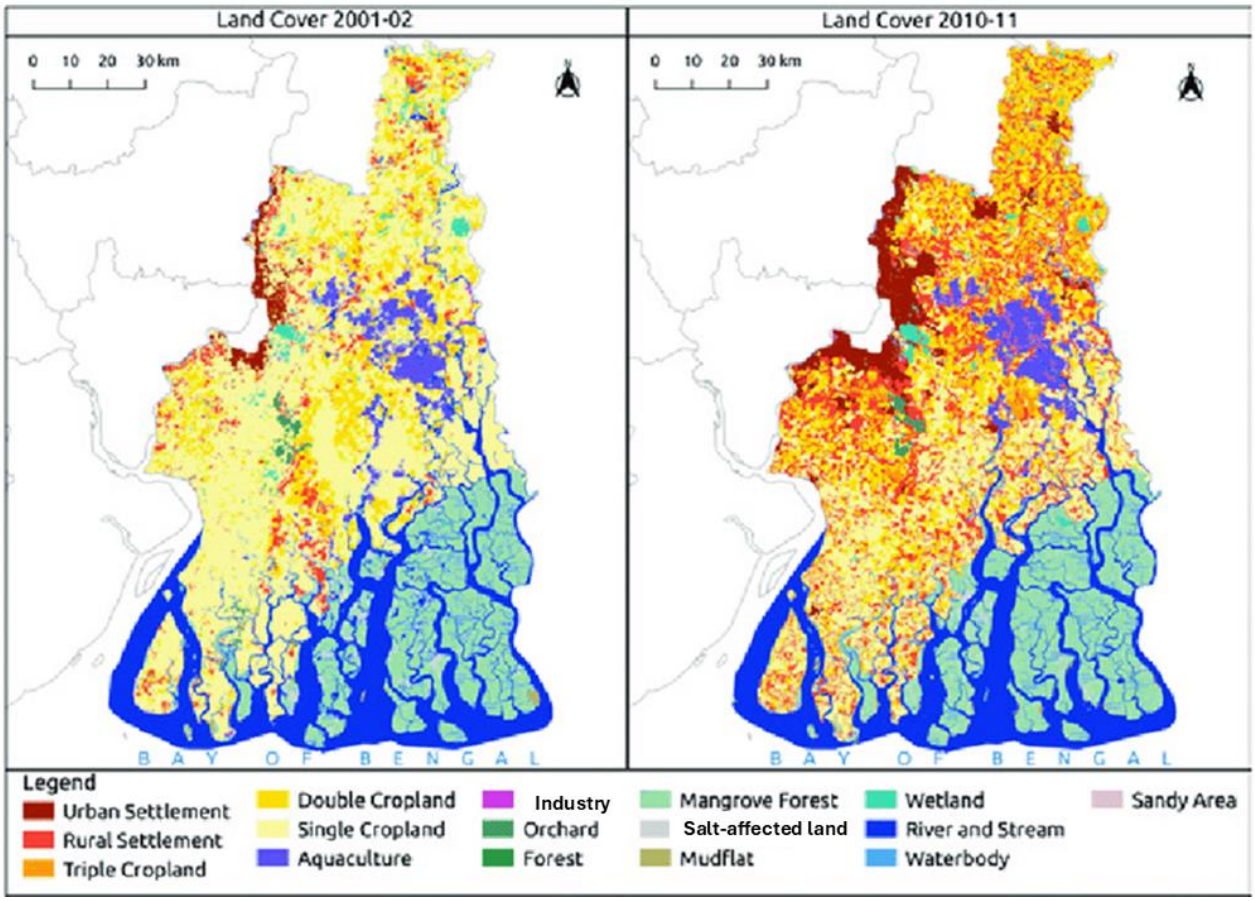

Resource 6 for Question 2

Classification of mass movements according to water content and velocity in the tropics

Resource 7 for Question 2

Land use change in the Indian section of the Ganges-Brahmaputra Delta from 2001-2002 to 2010-2011
