ANDERSON SERANGOON JUNIOR COLLEGE

JC2 H2 Geography Preliminary Exam (2026)

H2 GEOGRAPHY **9173/02**

Paper 2 **1 September 2026**

INSERT **3 hours**

READ THESE INSTRUCTIONS FIRST

The Insert contains all the Resources referred to in the questions.

Resource 1A for Question 1

Map of the investigation site and its vicinity

Legend

Location of "Return Right" reverse vending machine

Location of each student conducting questionnaire survey

Resource 1B for Question 1

Photographs of the investigation site and its vicinity

"Return Right" reverse vending machine at Block 512

Questionnaire survey site at Block 510

Questionnaire survey site at Block 511

Questionnaire survey site at Block 513

Resource 2 for Question 1

Profile of respondents for the questionnaire survey

Age Group	Gender			
	Male		Female	
	Number of respondents	Percentage of total sample population	Number of respondents	Percentage of total sample population
12 years and below	1	2.1%	1	2.1%
13 – 21 years	3	6.3%	5	10.4%
22 – 35 years	3	6.3%	2	4.2%
36 – 55 years	2	4.2%	4	8.2%
56 – 67 years	5	10.4%	5	10.4%
68 years and above	5	10.4%	12	25%

Resource 3 for Question 1

Extract from questionnaire survey

Question	Your Response
1. Do you know what the Return Right reverse vending machine is?	☐ Yes ☐ No
2. How often do you use the Return Right reverse vending machine?	☐ All the time ☐ Very often ☐ Often ☐ Sometimes ☐ Never
3. Do you think that the Return Right reverse vending machine is convenient to use?	☐ Yes ☐ No
4. What would increase your likelihood of recycling using the Return Right reverse vending machine?	

Resource 4A for Question 1

Results for Question 2 of the questionnaire survey

Question 2: How often do you use the Return Right reverse vending machine?					
Response	**All the time**	**Very often**	**Often**	**Sometimes**	**Never**
Number of respondents	2	2	3	15	26

Resource 4B for Question 1

Results of pedestrian count and observations of utilisation of the Return Right reverse vending machine

Nature of utilisation of Return Right reverse vending machine	Number of pedestrians	Percentage of total pedestrian count	Additional Observations
Approached but did not utilise the machine to return used bottles	10	76.9%	Most of these people came from the supermarket and looked at the machine briefly before walking away.
Utilised the machine and succeeded in receiving deposit of 10 cents	2	15.4%	NIL
Utilised the machine but failed to receive deposit of 10 cents due to technical error	1	7.7%	This person kicked the machine angrily and shouted that there is no point in using the machine even if it is located just outside Sheng Shiong Supermarket.

Resource 5A for Question 2

Article on the challenges of city branding efforts in Seoul, South Korea

The Challenges of City Branding in Seoul

In 2015, Seoul introduced "I.SEOUL.U" to replace "Hi Seoul", aiming to reflect citizen ownership. However, many people found the phrase confusing and ineffective for attracting global visitors.

Following a change in city leadership, local authorities spent a year developing the "Seoul, My Soul" campaign in 2023. The brand aims to enhance its urban competitiveness and become one of the top five global cities for living, visiting and investing. This updated framework uses colourful symbols - a heart for love, an exclamation mark for inspiration, and a smiley face for fun - to build an accessible identity focused on well-being, public consultation, and local pride.

However, critics point out that repeated rebranding reveals deeper issues in urban management. Slogan updates often follow changes in city leadership rather than long-term planning for the community. Dismantling existing street signs, public monuments, and promotional materials consumes significant public funds and staff time. This constant cycle leads residents to view public voting as a superficial exercise, while leaving global audiences confused and weakening the city's long-term international recognition.

Workers removing a sculpture of the former "I.SEOUL.U" branding campaign in central Seoul in 2023.

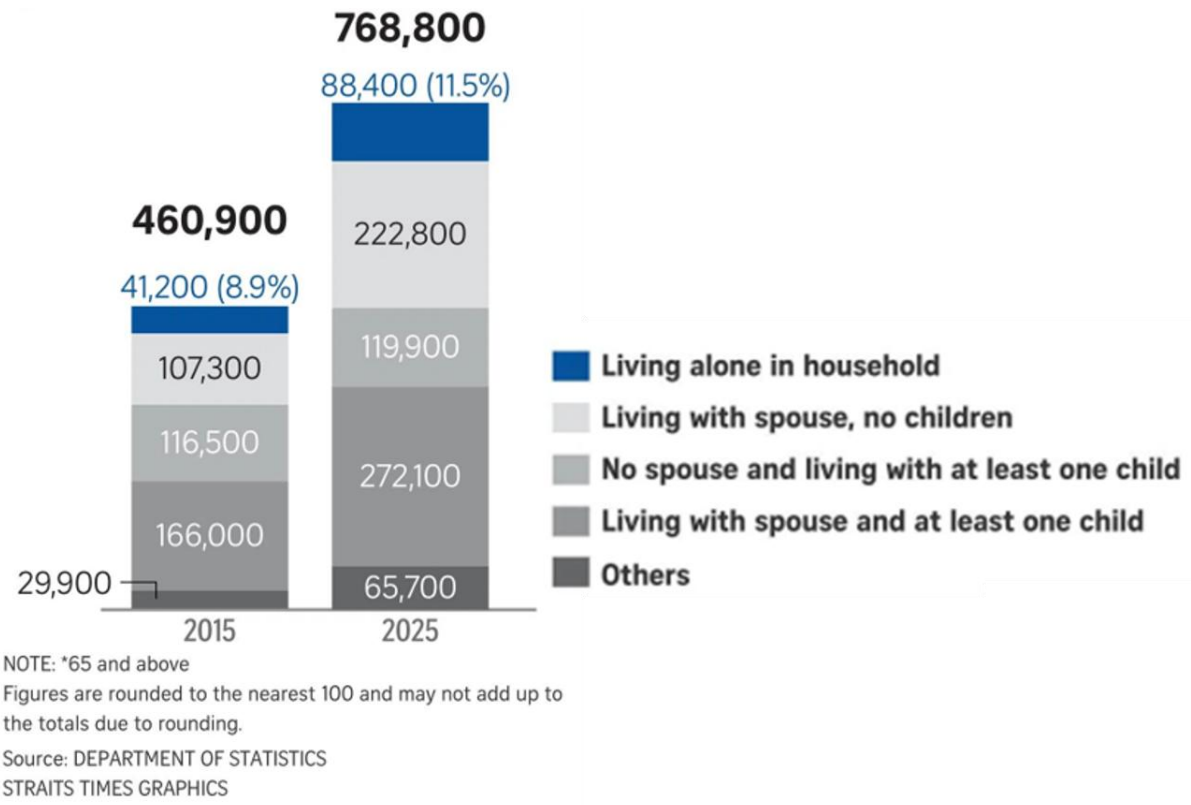

Resource 5B for Question 2

Information on the related initiatives of the "Seoul, My Soul" city branding campaign

Seoul Without Loneliness The Seoul Without Loneliness initiative is aimed at combating social isolation and building an inclusive city. A core strategy is the Seoul Mind Convenience Store, accessible neighborhood spaces designed like everyday stores where residents can rest, eat, and casually connect without pressure. Visitors can complete simple emotional assessments, access professional counseling, or talk with trained middle-aged volunteers who draw on their own past experiences with isolation to offer peer support.	**Garden City Seoul** The Garden City Seoul initiative aims to connect fragmented urban green spaces with gardens and vertical greenery, making nature accessible to every citizen within a five-minute reach, 365 days a year. By integrating green spaces into everyday life through leisure programs, the project addresses environmental issues like climate change while combating social challenges such as isolation and youth seclusion.

Resource 6 for Question 2

Living arrangements for seniors (65 years old and above) in resident households in 2015 and 2025

NOTE: *65 and above
Figures are rounded to the nearest 100 and may not add up to the totals due to rounding.

Resource 7 for Question 2

Ranked importance amongst Singaporeans of four sectors in bearing responsibility for eldercare*, 2018

	RANK 1	RANK 2	RANK 3	RANK 4
Family	**73.4**	14.7	6.8	5.1
Community	3.0	24.9	**45.4**	26.8
Employers	2.0	13.3	27.6	**57.1**
Government	21.7	**47.1**	20.2	11.0

Source: IPS Survey, *Singapore Perspectives*, 2018.

Note: Eldercare is defined as an integrated urban ecosystem supporting "ageing in place"- allowing seniors to live safely, actively, and with dignity in familiar communities.
