Resource 3 for Question 1
Collated Questionnaire Data (Total number of respondents: 120)

Resource 4 for Question 1
Field Observations Notes

- **Site A (MRT Station concourse):**
  - *Time:* 11:00 AM – 12:30 PM. High foot traffic. Most commuters under 35 were moving quickly with headphones in; many declined to take the survey.

Source:https://gemini.google.com/app?utm_source=deepmind.google&utm_medium=referral&utm_campaign=gdm&utm_content=

- **Site B (Margaret Drive Hawker Centre):**
  - *Time:* 12:30 PM – 2:00 PM. High foot traffic, outdoor ambient heat reached 33°C. Elderly residents were predominantly seated in groups having lunch. Several elderly respondents asked students to read the questionnaire questions out loud to them due to small font sizes on printed sheets.
