CG		INDEX NO	

GEOGRAPHY **9173/01**

Paper 1 **18 AUGUST 2026**

3 hours

Additional Materials: Answer Booklet
Insert

READ THESE INSTRUCTIONS FIRST

Write your name and class in the spaces at the top of this page.
Write in dark blue or black pen.
You may use an HB pencil for any diagrams or graphs.
Do not use staples, paper clips, highlighters, glue or correction fluid/tape.

The use of an approved scientific calculator is expected, where appropriate.

Answer **four** questions in total.

Section A
Both questions are compulsory.
Question 1
Question 2

Section B
Answer 1 question from each cluster
Question 3 or Question 4 (20m)
Question 5 or Question 6 (20m)

The Insert contains all the Resources referred to in the questions.
You should make reference to appropriate examples studied in the field or the classroom, even where such examples are not specifically requested by the question.
Diagrams and sketch maps should be drawn whenever they serve to illustrate an answer.
You are reminded of the need for good English and clear presentation in your answers.

Section A

Structured Questions

Answer both questions in this Section

Cluster 1 : Development, Economy and Environment

1 Resource 1 shows the GDP per capita across the Middle East. Resource 2 shows the proven natural gas and natural gas export by countries in 2025.

(a) Using Resource 1, describe the variations in GDP per capita across the Middle East. [5]

(b) Compare proven and conditional reserves. [3]

(c) With reference to Resource 2, describe the relationship between proven natural gas reserves and natural gas exports by country. [4]

(d) Using Resource 2, suggest why Iran, despite its large proven natural gas reserves, is not a major exporter of natural gas. [6]

(e) With reference to Resources 1 and 2, explain why resource rich countries such as Qatar and Iraq have experienced different levels of economic development. [6]

(f) Explain why the growth of service sector may bring both benefits and costs to countries. [6]

Cluster 2 : Tropical Environments

2 Resource 3 shows the location of Tindouf, Algeria and its climate graph. Resource 4 is a feature frequently seen in the humid tropics. Resource 5 is River Itachi before and after restoration.

(a) With reference to Resource 3, account for the climate of Tindouf, Algeria (X). [5]

(b) Explain the positive impacts of fluvial floods on places. [4]

(c) Using Resource 4, account for its formation. [5]

(d) With the use of the Resource 5, explain how channelisation and subsequent dechannelisation may affect fluvial processes. [6]

(e) Explain how a delta forms over time. [6]

(f) Account for how human activities have impacted the ecosystem services provided by deltas. [4]

Section B

Answer **Either** Question 3 **or** Question 4 and
Either Question 5 **or** Question 6.

Cluster 1 : Development, Economy and Environment

3 *"Our sustainable development goals are at risk in the current political climate... We are seeing unprecedented strain on international problem-solving systems due to mistrust, division, and conflicts."*
António Guterres (United Nations Secretary-General)

Evaluate the view that political challenges are major barriers to achieve sustainable development. [20]

4 "As economies become increasingly interconnected, multilateral institutions have gained greater influence over trade, investment and economic policy, challenging the ability of individual states to shape the global economy independently."

Evaluate whether multilateral institutions have become more influential than states in shaping the global economy. [20]

Cluster 2 : Tropical Environments

5 Evaluate the extent to which human factors are increasingly responsible for variations in storage within tropical drainage basins. [20]

6 Evaluate the extent to which different weathering processes are controlled by environmental conditions. [20]

[Total : 100 marks]
