READ THESE INSTRUCTIONS FIRST

This Insert contains all the Resources referred to in the questions.

Resource 1 for Question 1

Photograph of location of the hawker stall where students collected the data

Resource 2 for Question 1

Selected results of the questionnaire survey

1. I am aware of the initiative 'Reuse and Return Project'	Strongly Agree	Agree	Disagree	Strongly Disagree
	60%	20%	10%	10%

2. My choice of container for food to go is:	Reusable Container				Single-use Container			
	25%				75%			
3. Reasons for my choice of container are:	**Strongly Agree**	**Agree**	**Disagree**	**Strongly Disagree**	**Strongly Agree**	**Agree**	**Disagree**	**Strongly Disagree**
Care for the environment	25%	0%	0%	0%	5%	0%	65%	5%
Cost	20%	5%	0%	0%	10%	15%	30%	20%
*Family and peer pressure (only if you have chosen '**Reusable Container**' in Question 2)*	0%	45%	45%	10%				
*Convenience (only if you have chosen '**Single-use Container**' in Question 2)*					85%	15%	0%	0%

Resource 3 for Question 1

Selected findings from the interview

Respondent / Question	Respondent A	Respondent B	Respondent C
a. Awareness of initiative	Aware	Not aware	Aware
b. Frequency of visiting this hawker centre	Frequently on weekdays	Infrequent	Frequently on weekdays
c. Frequency of buying food to go / Choice of container for food to go	Frequent / Reusable	Seldom / Reusable	Sometimes / Single-use
d. Reason(s) for choice of container	a. Cheaper b. Care for environment	a. Cheaper	a. Cheaper b. Convenience
e. Thoughts and reasons on using alternative container choice for food to go	a. Will not use single-use container b. Expensive and bad for environment	a. Open to using single-use container b. No comments	a. Not open to using reusable container b. Inconvenient to wash and return

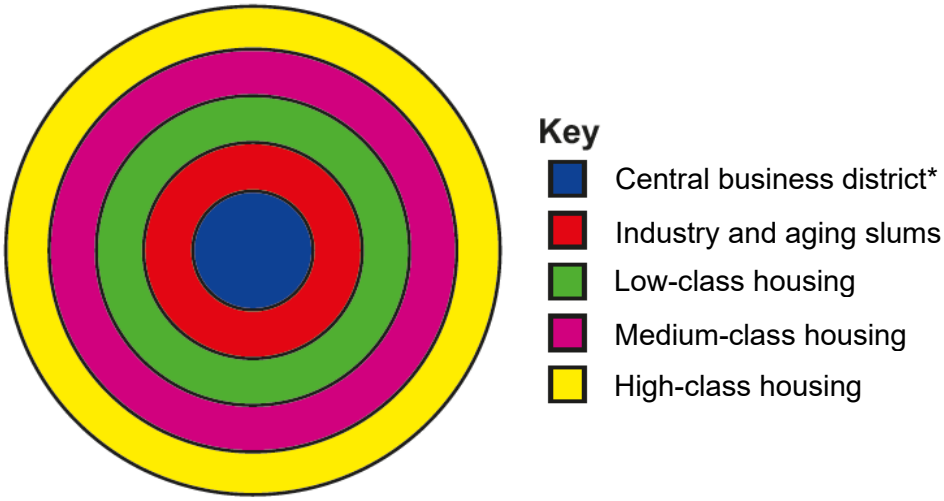

Response to Interview Question (e) by Respondent A

"After visiting this hawker centre with the initiative, I choose to use reusable food container. It is more environmentally friendly. I know that to manage waste generated, we need to cut down on the use of single-use plastic.

It might seem troublesome at first, but it will eventually become a habit. I feel better knowing I'm doing my part to help the planet. It's also less flimsy compared to single-use container."

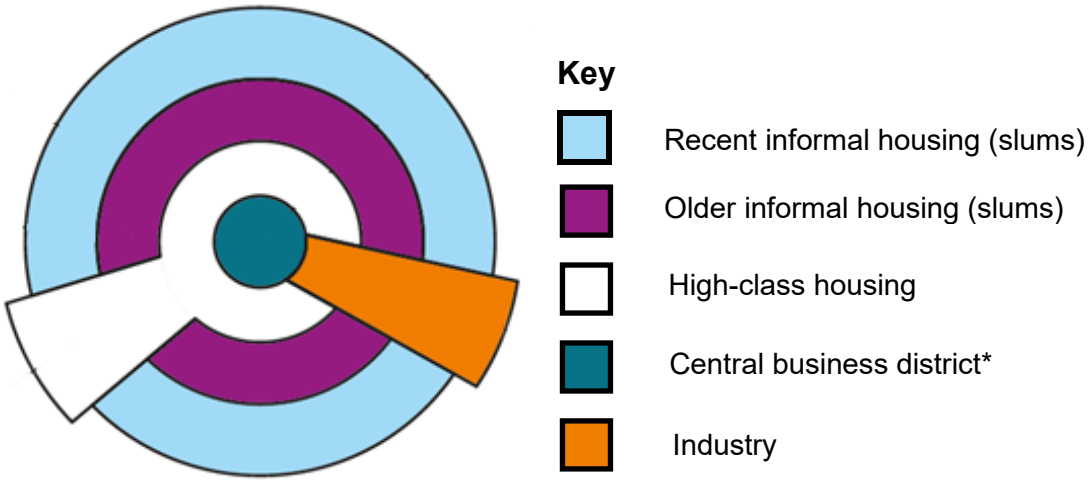

Resource 4A for Question 2

Model[#] of urban land use in developed countries

Resource 4B for Question 2

Model[#] of urban land use in developing countries

[#] *Not drawn to scale*
** Central business district (CBD) – Part of the urban area where there is a concentration of commercial and business activities*

Resource 5A for Question 2

Northumberland Street in the CBD of Newcastle-upon-Tyne, 1979

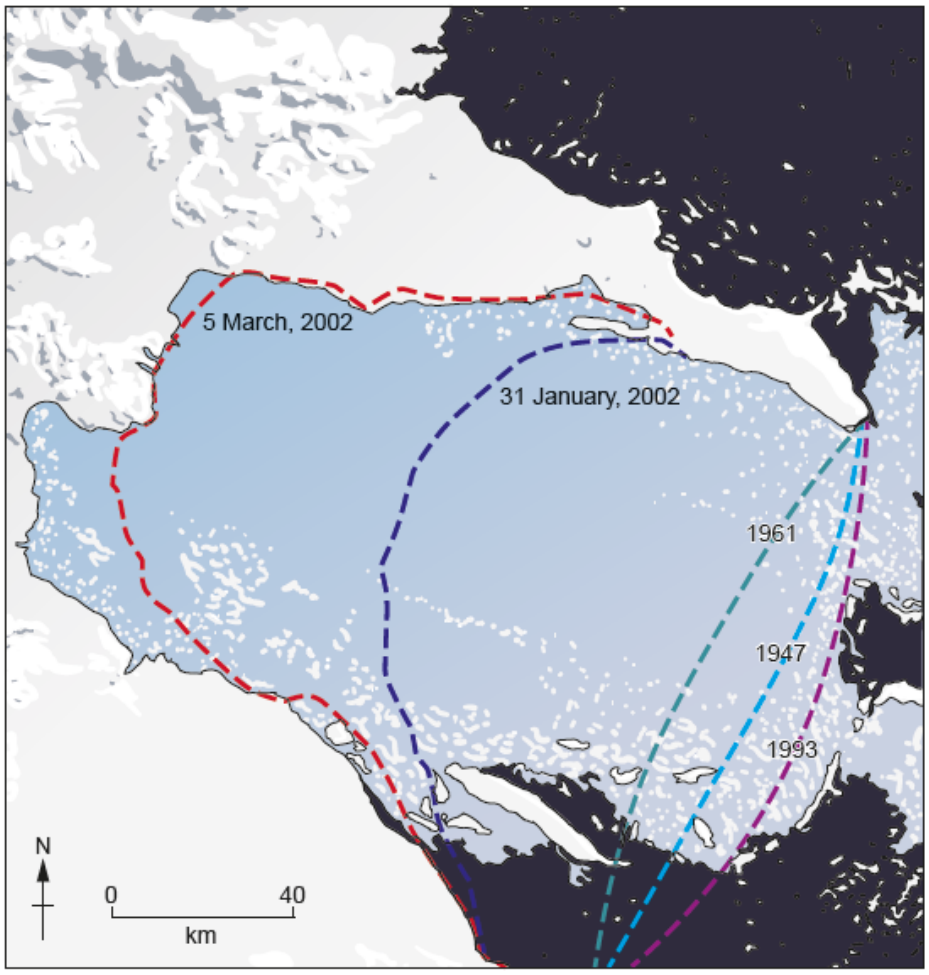

Resource 5B for Question 2

Northumberland Street in the CBD of Newcastle-upon-Tyne, 2016

Resource 6 for Question 3

Changes to the position of the ice front of the Larsen B Ice Shelf***, Antarctica, from 1947 to 2002**

Key

position of the ice front

- 5 March, 2002
- 31 January, 2002
- 1993
- 1961
- 1947

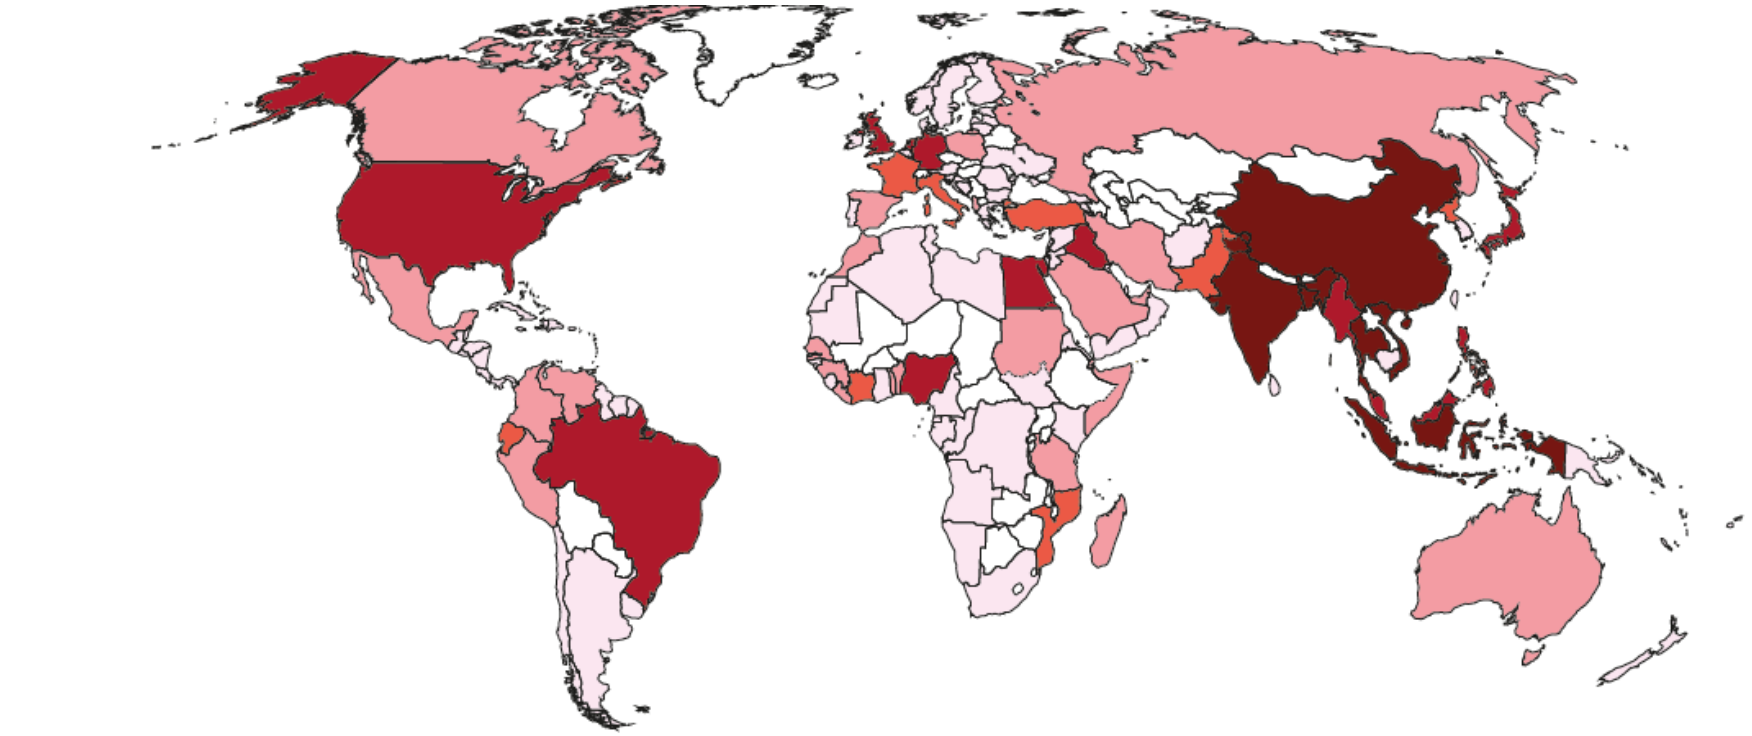

water body

former ice shelf

***An ice front is cliff forming the seaward face of an ice shelf*
****An ice shelf is a floating sheet of ice attached to a land mass*

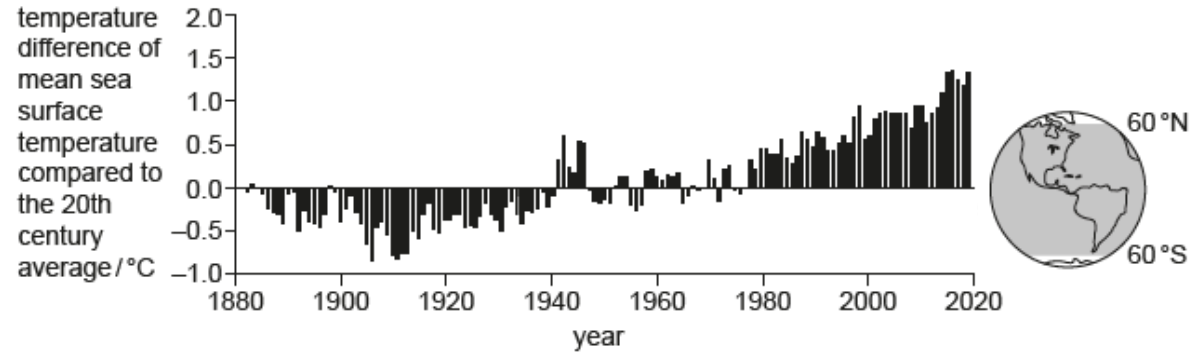

Resource 7 for Question 3

Number of people per country living on land expected to be below sea level by 2100

Resource 8A for Question 3

Temperature difference of mean sea surface temperature compared to the 20th century average (°C) from 1880 to 2020

Resource 8B for Question 3

Location of a population of American lobster in the North Atlantic (compared to their original location in 1980) between 1980 and 2020
