ANDERSON SERANGOON JUNIOR COLLEGE

JC2 H2 Geography Preliminary Exam (2026)

H2 GEOGRAPHY **9173/ 01**

21 August 2026

3 hours

Additional Materials: Answer Booklet
1 Insert

READ THESE INSTRUCTIONS FIRST
If you have been given an Answer Booklet, follow the instructions on the front cover of the Booklet.
Write your name and class on the work you hand in.
Write in dark blue or black pen on both sides of the paper.
You may use an HB pencil for any diagrams or graphs.
Do not use staples, paper clips, glue or correction fluid.

Answer both questions in **Section A**.
Answer two questions in **Section B**, one from each cluster.

At the end of the examination, fasten all your work securely together.
The number of marks is given in brackets [ ] at the end of each question or part question.

BLANK PAGE

Section A

Answer **both** questions.

Cluster 1: Development, Economy and Environment

1 Resource 1 shows progress assessment for the 17 Sustainable Development Goals (SDGs) based on assessed targets. Resource 2A shows the proportion of national-level governments who partner with city-level governments to collect data on progress towards the Sustainable Development Goals in 2023. Resource 2B shows the proportion of countries with fully-funded strategies to collect data under implementation in 2023.

The Brahmaputra River is a transboundary river shared by China, India, and Bangladesh. Resource 3 shows the share of employment per economic sector for India from 2000 to 2022. Resource 4A is a map showing the Brahmaputra River and its riparian states. Resource 4B is an article on the proposed construction of the Yarlung Tsangpo Grand Dam on the Brahmaputra River.

(a) With reference to Resource 1, compare progress in SDG Goal 4 and Goal 8. [5]

(b) Using Resources 2A and 2B, explain why there might be variations in data collection capacity across countries when measuring progress towards sustainable development. [4]

(c) Explain the political challenges faced by developed countries that limit progress towards sustainable development. [4]

(d) Explain the limitations of Thomas Malthus' and Ester Boserup's views on the relationship between population growth and resources. [6]

(e) Describe the changes in share of employment per economic sector for India from 2000 to 2022 shown in Resource 3. [5]

(f) With reference to Resources 3 and 4, explain why there might be conflicts between riparian states on the Brahmaputra River Basin. [6]

Cluster 2: Tropical Environments

2 In April 2024, Jiangwan Town, which lies in the Shaoguan City administrative area of Guangdong Province, China suffered extremely heavy rainfall, triggering mass movements and floods. Resource 5A shows the daily rainfall and cumulative rainfall distribution in Shaoguan in April 2024. Resource 5B shows the distribution of rainfall for the same period in April for the past 30 years in Shaoguan. Resource 6 shows a mass movement in Jiangwan Town on 24 April 2024.

Resource 7 shows the position of the Mississippi River delta lobes over different time periods.

(a) With reference to Resources 5A and 5B, explain why the rainfall events on 19 and 20 April 2024 in Shaoguan were considered "extreme". [6]

(b) Describe the type of mass movement shown in Resource 6. [4]

(c) With reference to Resources 5 and 6, explain how the mass movement in Jiangwan Town of Shaoguan City may have occurred. [6]

(d) Describe how mass movement events may impact deposition in a river channel. [3]

(e) Explain how meanders may develop along a river. [7]

(f) Describe the changes in the position of the delta lobes shown in Resource 7. [4]

Section B

Answer **either** question 3 **or** question 4, and answer **either** question 5 **or** question 6.

Cluster 1 Development, Economy and Environment

3 Evaluate the potential of hydropower to reduce dependence on fossil fuels as an energy source. [20]

4 Evaluate the view that global production networks (GPNs) of transnational corporations (TNCs) are of greater benefit to their host economies than their home economies. [20]

Cluster 2 Tropical Environments

5 Evaluate the impact of fluvial floods on places and people. [20]

6 Evaluate the view that geology is the determining factor influencing the formation of karst landforms in the humid tropics. [20]
