READ THESE INSTRUCTIONS FIRST

This Insert contains all the Resources referred to in the questions.

Resource 1 for Question 1

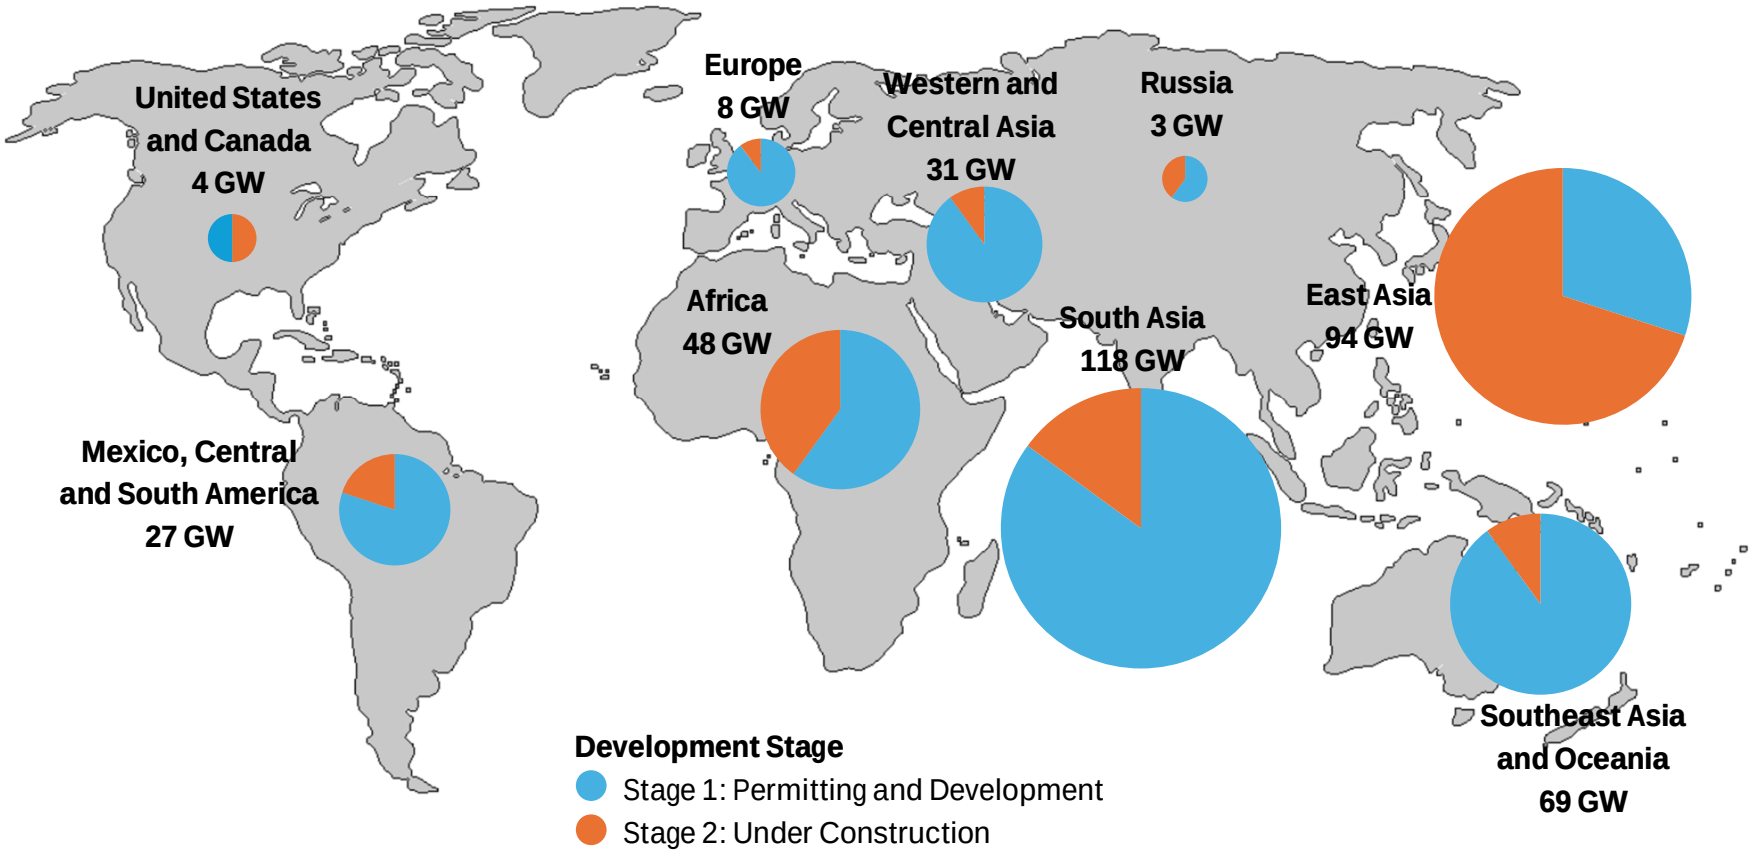

Global energy consumption by source (2010 – 2050)

Source: U.S. Energy Information Administration, *International Energy Outlook 2021* Reference case
Note: *Petroleum and other liquids* includes biofuels.

Resource 2 for Question 1

Map showing the world's hydropower projects in 2020

Note: Pie charts only include projects ≥ 10 MW

MW: Megawatt; GW: Gigawatt

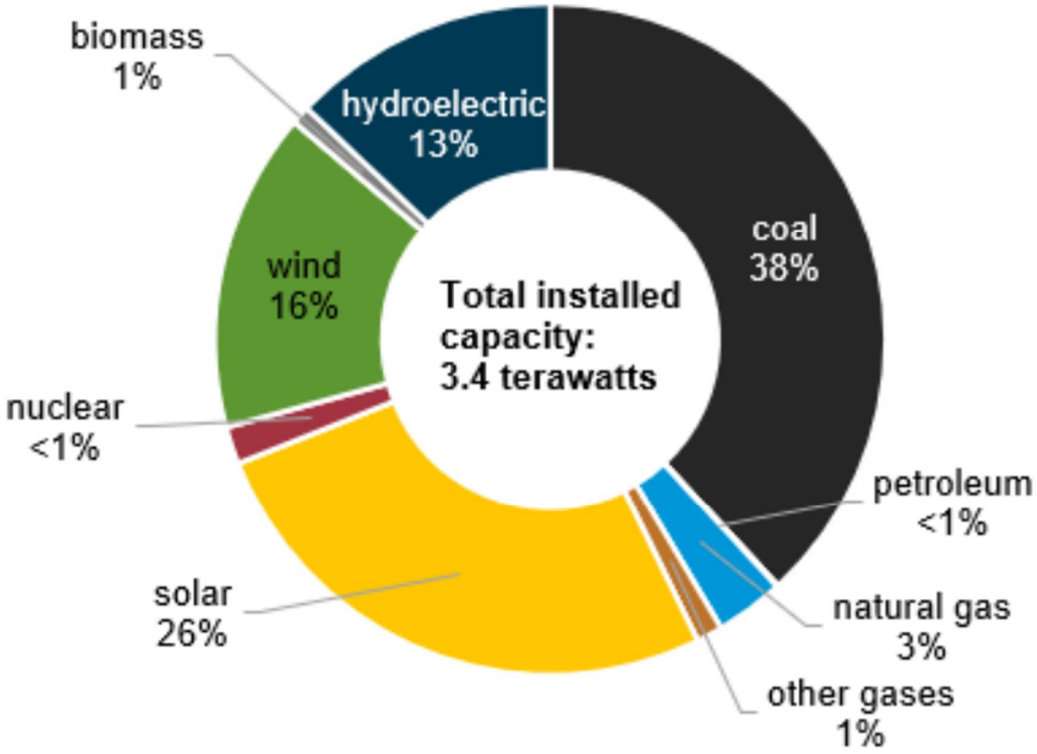

Resource 3 for Question 1

A hydropower dam in China

Resource 4 for Question 1

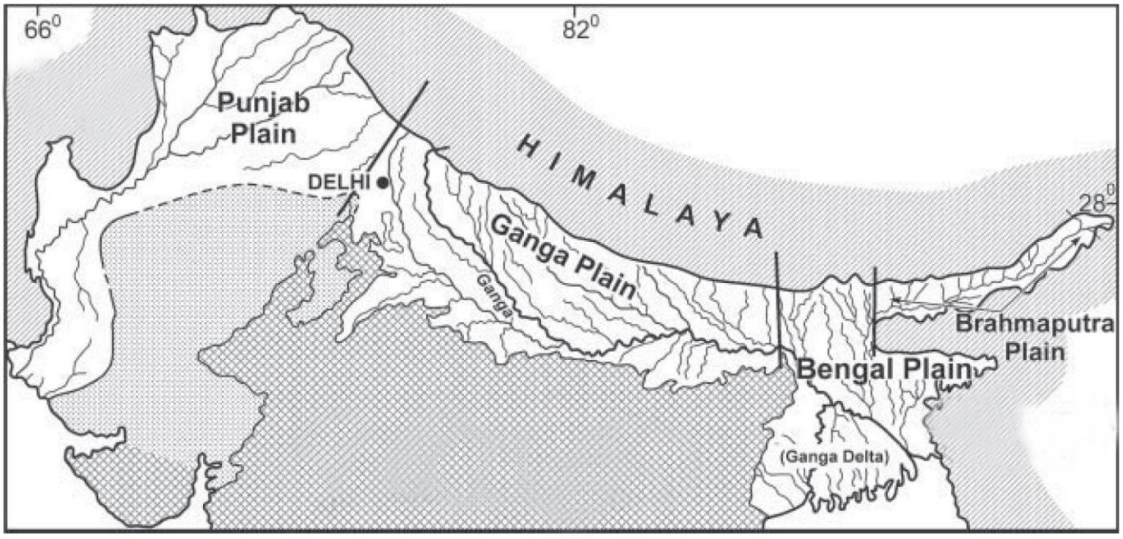

China's installed generation capacity of different energy sources

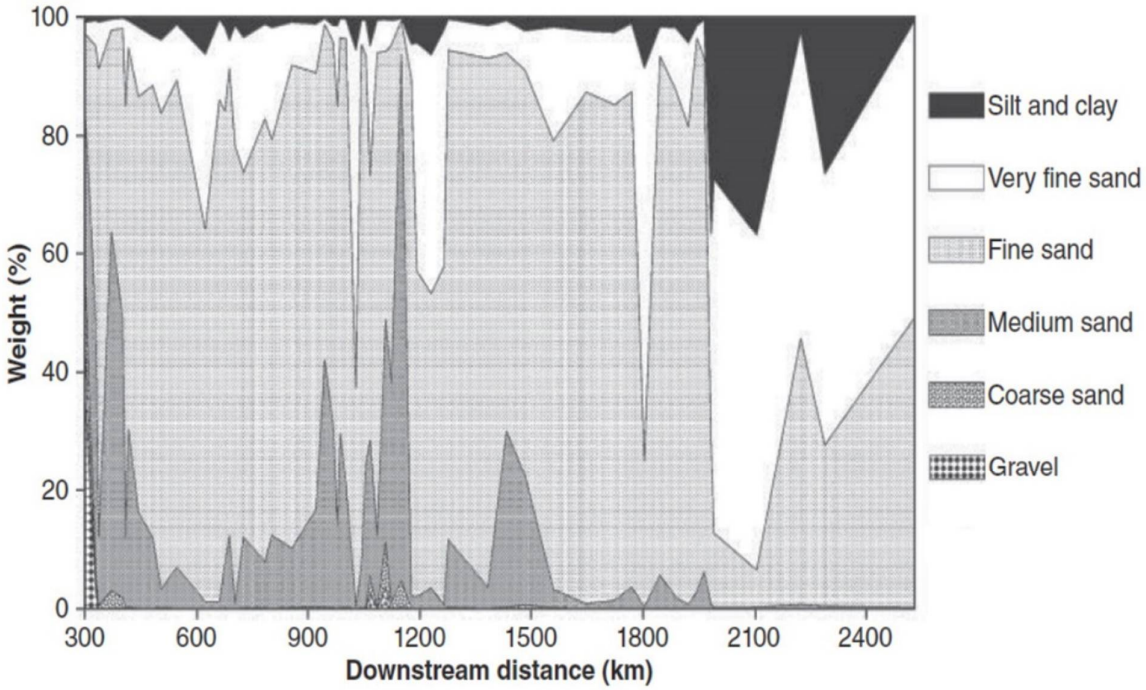

China's energy progress report towards achieving SDG 7

Year	2023
Total population (billion)	1.4
Access to electricity (% population)	100
Access to clean cooking (% population)	89
Renewable energy (% total energy consumption)	15
GDP per capita (US$)	12,614

Resource 5 for Question 2
Map of the Ganga River flowing through the alluvial Ganga Plain and Bengal Plain

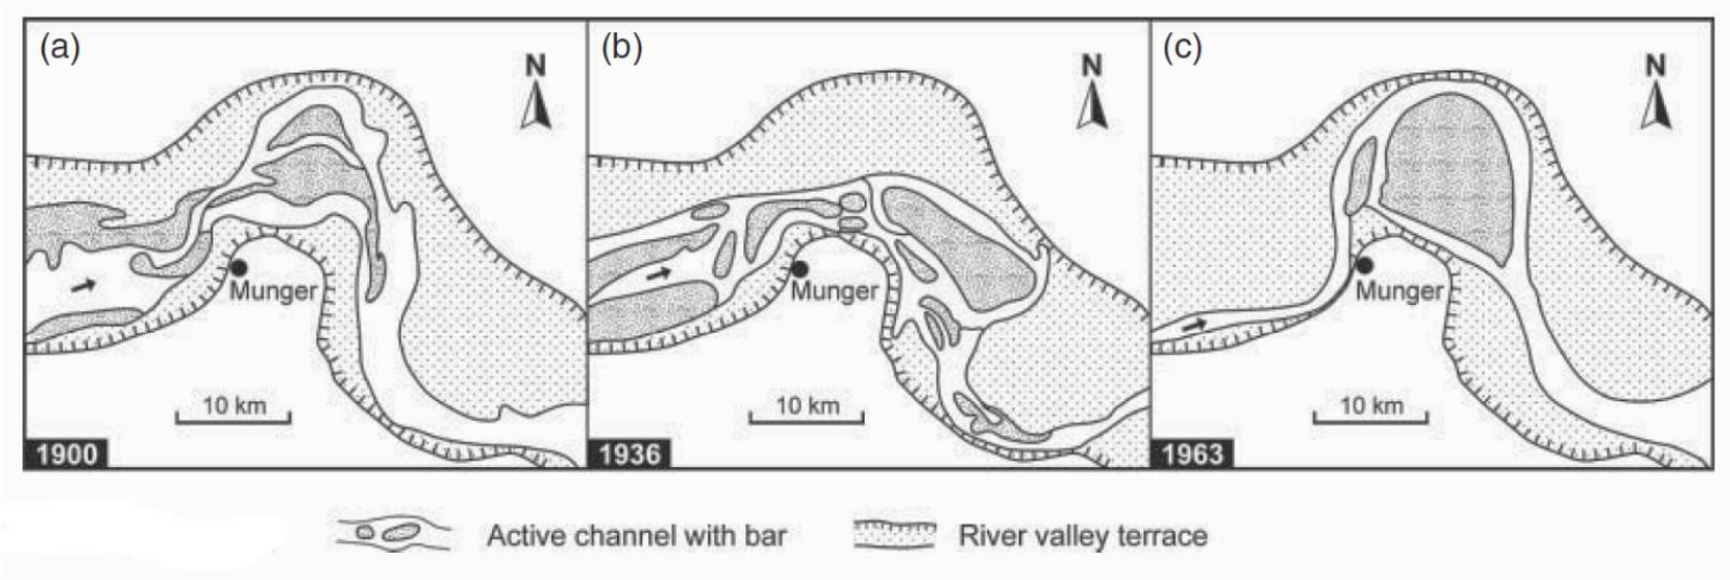

Resource 6 for Question 2
Sediment grain size variation by downstream distance in the Ganga River.

Resource 7 for Question 2

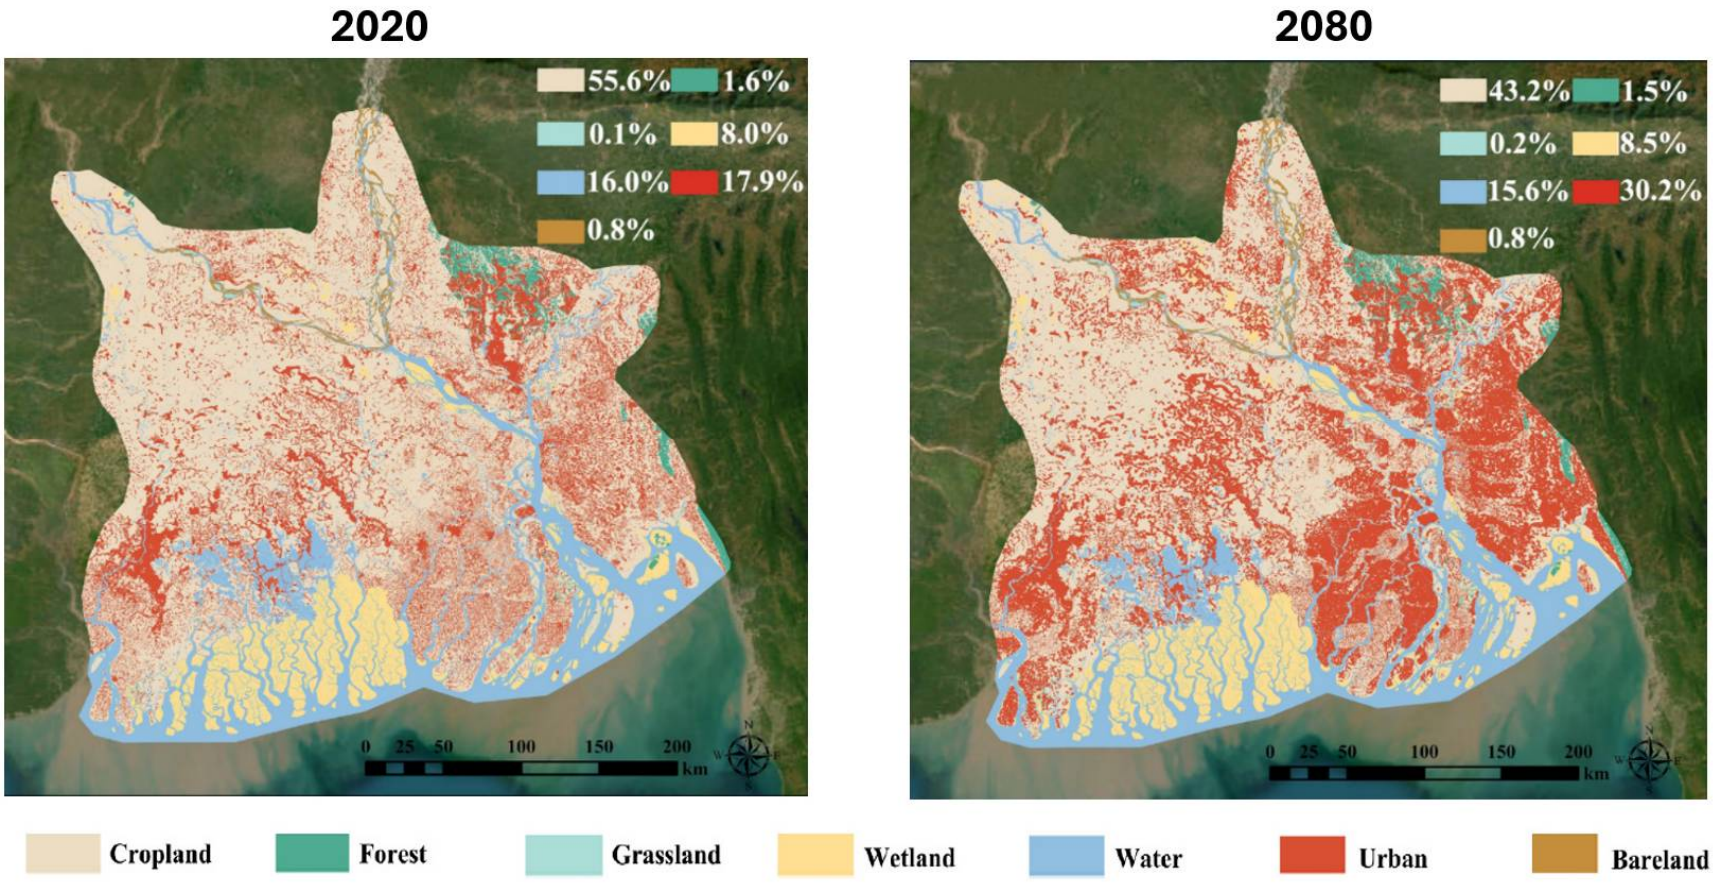

Changes in fluvial landform morphology of the Ganga River from 1900 to 1963

* Note: River valley terraces are step-like landforms along river valleys that represent old elevated floodplains.

Resource 8 for Question 2

Land cover changes in the Ganga-Brahmaputra-Meghna Delta from 2020 to projected year of 2080
